	Page
Foreword.....	vi
1. Introduction.....	1
2. Arrangement and explanation of table.....	1
2.1. Ordering of compounds.....	1
2.2. Nomenclature.....	1
2.3. Units and corrections.....	1
2.4. Selected values.....	1
2.5. Basic references.....	2
2.6. Other data.....	2
3. Bibliographic compilation procedure.....	2
4. Definition of dipole moment.....	3
5. Principal methods of dipole moment measurement.....	4
5.1. Microwave spectroscopy (MW).....	4
5.2. Molecular beam electric resonance (MB).....	5
5.3. Dielectric (DT, DR, NR).....	5
5.4. Temperature-variation procedure (DT).....	6
5.5. Indirect (optical) procedure (DR).....	6
5.6. Nonresonant microwave absorption or dispersion (NR).....	6
5.7. Comments on dielectric methods.....	6
6. Criteria for evaluation.....	7
6.1. Microwave measurements	7
6.2. Molecular beam measurements.....	7
6.3. Dielectric methods	7
6.4. Choice of selected value.....	8
7. Tables of selected dipole moments.....	9
7.1. Selected dipole moments (compounds not containing carbon).....	9
7.2. Selected dipole moments (compounds containing carbon).....	15
7.3. Appendix I. Variation of dipole moment with vibrational state.....	35
7.4. Appendix II. Isotopic dependence of dipole moment.....	34
8. Bibliography.....	41
