

TABLE OF CONTENTS

Abstract	1
1. Introduction	1
1.1 Content and History	1
1.2 Related Data Evaluations	3
1.3 Guide to the Tables	4
2. Chemical Reaction Matrix	9
3. Table. Data for chemical reactions and photochemistry of neutral species	10
4. Supplemental Table. Rate constant for the reaction HO + NO ₂ (+ N ₂) → HNO ₃ (+ N ₂) as a function of temperature and total gas concentration	72
5. Reference List and Notes	74
<u>Appendices:</u>	
1. Chemical Thermodynamic Properties of Selected Molecular Species	91
2. Addenda and Errata	105
3. Conversion Tables	110
