Preface	v
---------	---

## Chapter One History of Geomagnetism and Palaeomagnetism

1.1 The Magnetic Compass	1
1.2 Declination, Inclination and Secular Variation	5
1.3 Magnetic Charts and the Search for the Poles	7
1.4 Fossil Magnetism and the Magnetic Field in the Past	8
1.5 Transient Magnetic Variations—The External Magnetic Field	11
1.6 Origin of the Earth's Magnetic Field	12

## Chapter Two The Present Geomagnetic Field: Analysis and Description from Historical Observations

2.1 Magnetic Elements and Charts	15
2.2 Spherical Harmonic Analysis Description of the Earth's Magnetic Field	17
2.3 Uniqueness and Other Mathematical Problems	31
2.4 Geomagnetic Secular Variation: Time Variation of the Internal Sources	38
2.5 The External Magnetic Field	49

## Chapter Three Fundamentals of Palaeomagnetism

3.1 Rock Magnetism	59
3.2 Magnetic Mineralogy	71
3.3 Palaeomagnetic Directions and Poles	76
3.4 Palaeointensity Methods	87

## **Chapter Four    The Recent Geomagnetic Field: Palaeomagnetic Observations**

4.1 Archaeomagnetic Results	95
4.2 Analysis of Recent Lake Sediments	111
4.3 Geomagnetic Excursions	119
4.4 The Geomagnetic Power Spectrum	127

## **Chapter Five    Reversals of the Earth's Magnetic Field**

5.1 Evidence for Field Reversal	135
5.2 Marine Magnetic Anomalies	142
5.3 Analysis of Reversal Sequences	153
5.4 Behaviour During Polarity Transitions	160

## **Chapter Six    The Time-averaged Palaeomagnetic Field**

6.1 Geocentric Axial Dipole Hypothesis	169
6.2 Second-order Terms	177
6.3 Variations in the Earth's Dipole Moment	190
6.4 Palaeosecular Variation	196

## **Chapter Seven    Origin of the Earth's Magnetic Field 1: Introduction and Physical Insight**

7.1 Properties of the Earth's Interior	209
7.2 Some Non-dynamo Hypotheses	213
7.3 The Dynamo Problem	217
7.4 The Magnetic Induction Equation	221
7.5 General Concepts in Dynamo Theory	228

## **Chapter Eight    Origin of the Earth's Magnetic Field 2: Introduction to Advanced Dynamo Theory**

8.1 Vector Spherical Harmonics	241
8.2 Kinematic Dynamos	244
8.3 Turbulent and Hydromagnetic Dynamos	254

## **Chapter Nine    The Origin of Secular Variation and Field Reversals**

9.1 Secular Variation	265
9.2 Field Reversals	275

**Chapter Ten Palaeomagnetism and Dynamo Theory**

10.1 Overview	283
10.2 Standing Field	284
10.3 Variations in the Geomagnetic Field	294
10.4 Core–Mantle Boundary	297

**Chapter Eleven Lunar Magnetism**

11.1 Lunar Structure and Interior	305
11.2 The Present Magnetic Field	307
11.3 A Lunar Core?	312
11.4 Magnetic Properties of Lunar Rocks	317
11.5 Origin of the Lunar Magnetic Field	325

**Chapter Twelve Magnetic Fields of the Sun, Planets and Meteorites**

12.1 Origin of the Solar System	329
12.2 The Sun	332
12.3 Meteorite Magnetism	340
12.4 Magnetic Fields of the Planets	344
12.5 Dynamos in the Solar System	347

**Appendix A SI and Gaussian CGS Units and Conversion Factors** 353

**Appendix B Introduction to Universality Theory** 355

**References** 359

**Index** 397
