

## CONTENTS

|  |  |     |
|--|--|-----|
| <b>Preface</b> .....   | M. Kobayasi  | i   |
| <b>Geometrical Interpretation of Electrodynamics — <i>An Analysis</i> —</b><br>.....   | H. Fröhlich  | 1   |
| <b><math>SU_3</math> Triplets with Integral Electric Charge and the Baryon<br/>Structure</b> .....                                 | L. Van Hove  | 14  |
| <b>Reciprocity Theory of Elementary Particles</b> ( <i>Reprinted from</i><br>Rev. Mod. Phys. 21 (1949), 463).....                  | Max Born   | 31  |
| <b>Higher Symmetry Groups with Parity Mixing</b> .....   | R. E. Marshak, S. Okubo, J. Schechter and J. Wojtaszek | 56  |
| <b>Nuclear Force and the Bethe-Salpeter Equation</b> ..  | Masaaki Kawaguchi                                      | 76  |
| <b>Can the Gravitational Field Prove Essential for the Theory<br/>of Elementary Particles?</b> .....                               | M. A. Markov   | 85  |
| <b>Possible <math>G</math>-Parity Nonconservation in Muon Capture Reactions</b><br>— <i>Angular Distribution of Recoils</i> —..... | Masato Morita, Reiko Morita and Takeshi Shirafuji      | 96  |
| <b>A Class of Optical Models</b> .....   | Robert Serber  | 104 |
| <b>On Baryon Groundstates in Yukawa Theories</b> ....  | Gregor Wentzel   | 108 |
| <b>Approximation of Regge Potentials through Form Factors</b> ....<br>.....  | Geoffrey F. Chew                                       | 118 |
| <b>The Non-Locality of Force</b> .....   | John Archibald Wheeler                                 | 127 |
| <b>Conditional Probability in Physics</b> .....  | Satosi Watanabe  | 135 |
| <b>On Mesons and Cosmology</b> .....   | D. Ivanenko  | 161 |
| <b>Composite Model and Particle Production at Superhigh Energies</b><br>.....  | Ziro Koba  | 168 |
| <b>Three Kinds of Triplet Model</b> .....  | Yoneji Miyamoto  | 187 |
| <b>Deformable Sphere Model of Elementary Particles and the Origin<br/>of Internal Symmetries</b> .....                             | Osamu Hara and Tetsuo Gotô                             | 193 |
| <b>Dynamical Interpretation of Spurions</b> .....  | K. Nishijima and M. H. Saffouri                        | 207 |
| <b>The Measuring Process in Quantum Mechanics</b> .....  | L. Rosenfeld   | 222 |
| <b>On the Weak Intermediate Boson</b> .....  | Shuzo Ogawa  | 232 |
| <b>Role of Partially Conserved Axial-Vector Current in the <math>\pi_{\mu 2}</math><br/>and <math>K_{\mu 2}</math></b> .....       | Young Suh Kim and Sadao Oneda                          | 238 |
| <b>Baryon Structure and Electromagnetic Properties</b> .....   | Stanley Fenster and Yoichiro Nambu                     | 250 |
| <b>Gravitation Physics</b> .....   | Kichiro Hiida and Yoshio Yamaguchi                     | 261 |

|  |   |     |
|--|---|-----|
| <b>Particles as Collective Stationary States</b> .....   | W. Heisenberg   | 298 |
| <b>Elementary Particle Structures and Meson-Nucleon Backward Scatterings</b> .....   |   |     |
| .....  | Yoichi Fujimoto, Shigeru Machida and Mikio Namiki                                 | 304 |
| <b>An Impact Parameter Formalism</b> .....   |   |     |
| .....  | Toshimi Adachi and Tsuneyuki Kotani   | 316 |
| <b>Generalized Iso-Spin-Space, Generalized Gauge Transformation and Derivation of Meson</b> .....                          | Ryoyu Utiyama   | 332 |
| <b>Spinor Model of Baryons and Mesons</b> .....  | Takehiko Takabayasi   | 339 |
| <b>The Theory of Correlated Crystals</b> .....   |   |     |
| .....  | Keigh A. Brueckner and Jobst Froberg  | 383 |
| <b>On the Electromagnetic Structure of the Yukawa Meson</b> .....  |   |     |
| .....  | L. I. Schiff  | 400 |
| <b>Remarks on a New Concept of Elementary Particles and the Method of the Composite Model</b> .....                        |   |     |
| .....  | Ziro Maki, Yoshio Ohnuki and Shoichi Sakata                                       | 406 |
| <b>On the Abnormal Solution of Bethe-Salpeter Equation — A Relation between Static and Non-Static Solutions —</b> .....    |   |     |
| .....  | Yoshio Ohnuki and Keiji Watanabe  | 416 |
| <b>Proton-Neutron Mass Difference</b> .....  |   |     |
| .....  | Hironari Miyazawa, Yoshiko Oi and Mahiko Suzuki                                   | 436 |
| <b>Comparison of Effective Ranges of <math>n</math>-<math>p</math> and <math>p</math>-<math>p</math> Interactions</b> .... |   |     |
| .....  | G. Breit, K. A. Friedman and R. E. Seamon   | 449 |
| <b>Stability and Instability of Plane-Wave Hartree-Fock Solutions and the Helical Spin Arrangement</b> .....               |   |     |
| .....  | Nobuyuki Fukuda, Tohru Ogawa and Toshio Soda                                      | 492 |
| <b>Atomism and Cosmology</b> .....   | Satio Hayakawa  | 532 |
| <b>A Relation between the Minkowski and Isobaric Spaces</b> .....  |   |     |
| .....  | Toshiyuki Toyoda  | 542 |
| <b>Inelastic Process and the One Boson Exchange Model</b> .....  |   |     |
| .....  | Masayoshi Kikugawa, Shoji Sawada, Tamotsu Ueda, Wataro Watari and Minoru Yonezawa | 548 |
| <b>Internal Coordinates, <math>SU_3</math> Symmetry and Charge of Elementary Particles</b> .....                           | Gyo Takeda  | 557 |
| <b>A Variant Triplet Model and Integral Charge</b> .....   |   |     |
| .....  | Yasuhisa Katayama, Isao Umemura and Eiji Yamada                                   | 564 |
| <b>A Possible Origin of Repulsive Core in Nuclear Forces</b> .....   |   |     |
| .....  | Shoichiro Otsuki, Ryoza Tamagaki and Masaru Yasuno                                | 578 |

|  |   |     |
|--|---|-----|
| <b>The Impact of Yukawa's Meson Theory on Workers in Europe</b><br>— <i>A Reminiscence</i> — ..... | N. Kemmer   | 602 |
| <b>Particle Dynamics and Symmetries in De Sitter Space</b> .....                                   | Yasutaka Tanikawa                                       | 609 |
| <b>Emission of Light Fragment from Heavy Nuclei in High Energy Nuclear Reactions</b> .....         | Tatsuoki Miyazima, Kôsukey Nakamura and Yasuhiko Futami | 621 |
| <b>Phenomenological Analysis of High Energy Scattering</b> .....                                   | D. Itô, G.A. Armoudian and K. Mori                      | 626 |
| <b>The Rearrangement of Symmetries in Dynamical Maps</b> .....                                     | L. Leplae, R.N. Sen and H. Umezawa                      | 637 |
| <b>High Energy Nuclear Interactions and Structure of Elementary Particles</b> .....                | Mituo Taketani and Yoichi Fujimoto                      | 651 |
| <b>Quantum Numbers of Particles</b> .....  | Seitaro Nakamura  | 661 |
| <b>Author Index</b> .....  |   | 685 |
