

## CONTENTS

<b>Atomic Physics and Fundamental Principles</b>	
<b>V.W. HUGHES</b>	<b>1</b>
<b>Do Quarks Play an Explicit Role as Nuclear Constituents?</b>	
<b>T. YAMAZAKI</b>	<b>35</b>
<b>Search for a Permanent Electric Dipole Moment on Atoms</b>	
<b>N. FORTSON</b>	<b>55</b>
<b>A New Measurement of Parity Nonconservation in Atomic Cesium</b>	
<b>C.E. WIEMAN, S.L. GILBERT and M.C. NOECKER</b>	<b>65</b>
<b>Theoretical Problems in Quantum Electrodynamics</b>	
<b>J. SAPIRSTEIN</b>	<b>77</b>
<b>Measurement of the Lamb Shift in Heliumlike Uranium (<math>U^{90+}</math>)</b>	
<b>H. GOULD and C.T. MUNGER</b>	<b>95</b>
<b>Anomalous Positron Emission in Heavy Ion-Collisions</b>	
<b>P. KIENLE</b>	<b>105</b>
<b>Quantum Correlations in the Two-Photon Decay of Atomic Hydrogen</b>	
<b>A.J. DUNCAN</b>	<b>121</b>
<b>On the State Vector Model of the Two-Photon Emission of Metastable Atomic Hydrogen</b>	
<b>H. KLEINPOPSEN</b>	<b>141</b>
<b>Antiprotonic Atoms</b>	
<b>G. BACKENSTOSS</b>	<b>147</b>
<b>Crystal-Diffraction Spectrometry with Muonic and Pionic Atoms</b>	
<b>J.-F. GILOT and H.J. LEISI</b>	<b>169</b>

Muon Capture in Hyperfine States of Muonic Atoms M. MORITA	179
Coulomb Three Body Problem and Muon Catalyzed Fusion L.I. PONOMAREV	197
Thermal Muonium and Muon Catalyzed Fusion with Pulsed Muons K. NAGAMINE	221
R-Matrix Method in Atomic Physics P.G. BURKE	243
Collision Experiments with Highly Ionized Atoms R.A. PHANEUF, D.C. GREGORY, C.C. HAVENER and F.W. MEYER	265
Synchrotron Radiation Spectroscopy of Atoms and Molecules at Photon Factory T. SASAKI	283
Some Researches in Atomic Physics in China J.-M. LI	303
Chaos in Atomic Physics R.V. JENSEN	319
The One-Atom Maser – A Test System for Simple Quantum Electrodynami c Effects H. WALTHER	333
Macroscopic Quantum Jumps in a Single Atom R.G. BREWER and A. SCHENZLE	351
Laser-Atom Interactions: Recent Theoretical Developments J. DALIBARD and C. COHEN-TANNOUDJI	365
Demonstration of Laser Cooling and Trapping of Atoms S. CHU, J.E. BJORKHOLM, A. ASHKIN and A. CABLE	377
X-Ray Spectroscopy Studies of Atomic Processes in High Temperature Plasmas E. KÄLLNE and J. KÄLLNE	395

<b>Quantum Hall Effect: Development and Present Status</b>	
<b>S. KAWAJI</b>	<b>415</b>
<b>Extraordinary Molecules in Interstellar Space</b>	
<b>T. OKA</b>	<b>439</b>
<b>AUTHOR INDEX</b>	<b>445</b>
<b>SUBJECT INDEX</b>	<b>459</b>
