

Contents

| | |
|---|-----|
| Preface..... | 1 |
| Part 1 | |
| Introduction..... | 3 |
| 1. Electron density..... | 6 |
| 2. Positive ion density..... | 58 |
| 3. Electron temperature..... | 86 |
| 4. Plasma waves and magnetic field..... | 130 |
| 5. Neutral particles (density, temperature, and wind)..... | 148 |
| 6. Airglow | 186 |
| Part 2 | |
| 1. Cosmic dust..... | 203 |
| 2. Zodiacal light..... | 204 |
| 3. Ultraviolet radiation..... | 210 |
| 4. Cosmic X-ray..... | 216 |
| 4.1 Exploratory works..... | 216 |
| 4.2 Diffuse component of hard X-rays..... | 218 |
| 4.3 Rocket observations of diffuse X-rays and soft X-ray sources... | 224 |
| 4.4 Position and size of Cyg X-1..... | 234 |
| 4.5 Time variations of Sco X-1 and a new-born source..... | 237 |
| Appendix Parameters of sounding rockets..... | 249 |
