

CONTENTS

Introduction	3
Hirayama T. Cooperative Promotion of Energy Conservation	4
Styrikovich M. A., Kononov Yu. D. Methodological Problems of Long-Range Energy Development and its Interrelations with the Economy	11
Takei M. Change of Energy Consumption Structure and Long-Range Energy Demand Forecast of Japan	20
Krogeris A. F., Mazurs Yu. Ya., Rudenko Yu. N., Cheltsov M. B. The Problems of Manoeuvrability and Reliability of a Fuel Supply System	34
Oshima K. Technological Perspective of Japanese Energy Policy	51
Styrikovich M. A., Belova A. M., Rassokhin N. G., Khainson Ya. I., Chernavski S. Ya. Covering the Intermediate Part of the Electric Load Curve: Future Prospects	61
Akhmedov R. B., Belyaev L. S., Khodos T. A., Chakhovsky V. M., Voronkov M. E. Electric Load Leveling Through Energy Storage	73
Emelyanov I. Ya., Chernyaev V. A. The Possibilities of Nuclear Power Plant Operation in Manoeuvrable Duty	87
Ueda R. Development of VHTR and its Process Heat Application in Japan	120
Tanaka S. The Status of Research and Development of Solar Heating and Cooling Systems in Japan	132

ДОЛГОСРОЧНОЕ ПРОГНОЗИРОВАНИЕ РАЗВИТИЯ СИСТЕМ ЭНЕРГЕТИКИ, ИХ МАНЕВРЕННОСТЬ И НАДЕЖНОСТЬ

Материалы III Советско-японского симпозиума
по проблемам энергетики
г. Юрмала, 22–24 сентября 1982 года

Академия наук Латвийской ССР
Физико-энергетический институт
Рига, издательство „Зинатне”, 1983
