

C O N T E N T S

Fluctuation Measurements on Textor Using CO ₂ Laser Scattering	1
H W H van Andel	Edmonton, Canada
A Boileau	IRNS Energie, P.Q., Canada
M von Hellermann	JET
Modulation of the Turbulence Level and of the Energy Flux by Sawtooth Relaxations in Tokamaks	7
A Rogister, G Hasselberg, A Kaleck	Jülich FRG
A Boileau, H W H van Andel	Canada
M von Hellermann	JET
Far-Infrared Multichannel Collective Scattering on the TEXT Tokamak	13
D L Brower, W A Peebles, R L Savage Jr, and N C Luhmann Jr	UCLA USA
HCN Laser Scattering on the JIPP T-IIU Tokamak	21
J Fujita, T Tetsuka, K Kawahata, A Nishizawa	Nagoya
T Iwasaki, S Okajima	Chubu Univ, Japan
CO ₂ Scattering Experiment on FT Tokamak for Density Fluctuation Measurement	27
P De Simone, D. Frigione, F Orsitto	Frascati, Italy
Electron and Ion Cyclotron Wave Heating Physics via Collective Scattering Techniques	29
W A Peebles, N C Luhmann Jr, S Kim, T Lehecka,	UCLA USA
P Zimmerman	
Laser-Induced Fluorescence: Positions and Directions	31
R A Stern	Lausanne, Switzerland
Simultaneous Measurement of Current and Plasma Density Profiles in the TEXT Tokamak	39
D M Thomas, W P West	General Atomic, San Diego, USA
Shao-Bai Zheng	Austin, Texas, USA
Measurement of Atomic Hydrogen Density Profiles in Large Plasma Machines Using Laser Fluorescence Spectroscopy Tuned to the Balmer Series Transitions	45
K Uchino, T Okada, K Muraoka, M Akazaki, M Maeda	Kyushu Univ, Japan
D Okano	Fukuoka Univ, Japan
RFC-XX-M Group	Nagoya, Japan
Heliotron E Group	Kyoto, Japan

Relation of Magnetic Activity with Confinement in JET and TCA Tokamaks	53
P A Duperrex, R Keller, A Pochelon, M L Sawley JET and Lausanne, Switzerland	
Collective Scattering of CO ₂ Laser Radiation on a Magnetized Hollow Cathode Arc	59
P J van de Mortel, E Castelein, D C Schram Eindhoven A Boileau Montreal, Canada The Netherlands	
Confinement and Density Fluctuations in Axisymmetrized Tandem Mirror GAMMA 10	65
A Mase, T Saito, M Fujita, N Higaki, M Inutake, A Itakura, T Koseki, S Miyoshi and the Plasma Group, Tsukuba Univ, Japan	
A Comparison of Imaging Techniques for the Study of Plasma Density Fluctuations	71
H Weisen Lausanne, Switzerland	
Phase Imaging on the MICROTOR and TEXT Tokamaks	77
J Howard, E J Doyle, S Kim, N C Luhmann Jr, W A Peebles, R Savage, J Wagner UCLA and D B Rutledge Cal Tech USA	
Long Wavelength Density Fluctuations in a Tokamak Plasma	85
A Côté, E J Doyle, D E Evans, Y Sonoda Culham	
Submillimetre Far Forward Scattering from a Tokamak Plasma When Mirnov Oscillations are Present	91
B W James, P A Stimson, I S Falconer Univ of Sydney Australia	
Investigation of Density Fluctuations on the Tokamak TCA Using the Phase Contrast Method	97
H Weisen Lausanne, Switzerland	
Measurements of Density Fluctuations in a Mirror Machine During ICRF Heating Using Fraunhofer Diffraction	103
K Matsuo, T Toyoda, Y Sonoda, K Muraoka, M Akazaki Kyushu Univ, Japan RFC-XX-M Group, Nagoya, Japan	

Measurement of Fluorescence Line Profiles with a Rapid Frequency Scan Laser in Plasma Devices	109
<i>C Honda, T Moroishi, M Maeda, Y Matsuda, S Matsubaguchi, K Muraoka, M Akazaki Kyushu Univ, Japan</i>	
Developments of Laser Fluorescence Spectroscopy in the Vacuum Ultra-Violet for Studies of Light Element Behaviour in High Temperature Plasmas	115
<i>T Okada, T Kajiwara, M Inoue, A Nishio, H Koizumi, K Muraoka, M Akazaki, and M Maeda Kyushu Univ, Japan</i>	
Generation of Tunable Vacuum Ultra-Violet Radiation in the Kilowatt Power Range and Fluorescence Diagnostics of Atomic Oxygen at 130 nm	121
<i>H F Döbele, M Hörl and M Röwekamp, Univ Essen, FRG B Reimann Max Planck Inst für Strahlenchemie Mülheim-Ruhr, FRG</i>	
Neutral Beam Probe Spectroscopy for the Measurement of Local Plasma Density Fluctuations	127
<i>A Komori, K Yamagiwa, O Mitarai, H Yamaoka, K Kadota, and J Fujita Nagoya, Japan</i>	
Plasma Magnetic Field Diagnostic Using Laser Detection of Neutral Lithium	133
<i>P G Weber Los Alamos, USA</i>	
Laser Intracavity Absorption as a Plasma Diagnostic Aid	139
<i>G A Wurden Los Alamos, USA</i>	
Fluctuation Measurements with Heavy Ion Beam Probes	145
<i>Plasma Diagnostics Group and R L Hickok Rensselaer Polytechnic USA</i>
