## Contents

Chapter 1.	Oscilloscope Measurements of Current and	
	Voltage in Pulsed Thermonuclear Devices	1
	References	9
Chapter 2.	Plasma Diagnostics with Probes	10
	2.1. Langmuir Probes	10
	2.2. Electrostatic Plasma Analyzer	22
	2.3. Magnetic Probes and Pressure	
	Balance	<b>26</b>
	References	<b>37</b>
Chapter 3.	Determination of Electron Temperature from	
	Emission Intensity Ratios in Line Spectra	39
	3.1. Line Spectrum of a Plasma	39
	3.2. Low-Density Plasma	41
	3.3. High-Density Plasma	52
	3.4. Ionization State of a Plasma	56
	References	66
Chapter 4.	Determination of Plasma Parameters from	
	the Shape of Spectral Lines	68
	4.1. Introduction $\ldots$	68
	4.2. Determination of Ion Temperature	
	from the Doppler Broadening of	
	Spectral Lines	69
	4.3. Doppler Effect in a Scattered Light.	77
	4.4. Stark Broadening of Spectral Lines	
	in a Plasma	85
	4.5. Time Scan of a Spectral Line	103
	References	110

xiii

Chapter 5.	Continuous Spectra. Determination of	
-	Electron Density and Temperature	113
	5.1. Bremsstrahlung and Recombination	
	Radiation in the X-Ray, Ultraviolet,	
	and Visible Regions of the	
	Spectrum	1 <b>1</b> 3
	5.2. Infrared Region of a Continuous	
	Spectrum	124
	References	130
Chapter 6.	Time Sweep Photography	131
empter of	References	140
Chapter 7.	Determination of the Dielectric Constant	
	of a Plasma	141
	7.1. Measurement of Plasma Density	
	with Microwaves	141
	7.2. Interferometer Methods for	<b>T</b> 11
	Investigating Plasma in the Visible	
	Region. Use of Lasers	153
	6	$150 \\ 170$
Chapton 9	References Particle Methods for Plasma Diagnostics	171
Chapter 8.		111
	8.1. Use of a Beam of Charged Particles to Measure Electric Fields	
		171
	in a Plasma	111
	8.2. Measurement of the Density of	
	Neutral Particles and Charged	1 17 4
	Particles.	174
	8.3. Mass Spectrometer Method for	
	Studying Fast Particles	1.00
	in a Plasma	183
	8.4. Calorimetric Methods of Plasma	
	Diagnostics	191
	8.5. Detection of Hard Plasma Radiation	195
	References	202
Chapter 9.	Measurement of the Parameters of	
	Accelerated Plasmoids	205
	References	212
Index		213
