Molecular Orbital Theory of the Spin Properties of Conjugated Molecules

G. G. Hall and A. T. Amos

1. Introduction	2
2. Relativistic Additions to the Schrödinger Hamiltonian	3
3. The Molecular Orbital Method	8
4. Density Matrices	15
5. Chemical Shift	18
6. Electron Spin-Nuclear Spin Coupling and Spin Densities	22
7. Nuclear Spin-Spin Coupling	37
8. Electron Spin-Spin Coupling: Zero-Field Splittings	45
9. Spin-Orbit Coupling	51
10. Electronic g Factor	53
11. Conclusions	55
References	55

Electron Affinities of Atoms and Molecules

B. L. Moiseiwitsch

I. Introductory Remarks	61
II. Calculation of Electron Affinities	61
III. Experimental Determination of Electron Affinities	71
References	81

Atomic Rearrangement Collisions

B. H. Bransden

I. Introduction	85
II. General Theory of Rearrangement Collisions	86
III. Charge Exchange Reactions	102
IV. Exchange in Electron Scattering by Atoms	130
V. Formation and Scattering of Positronium	141
References	144

The Production of Rotational and Vibrational Transitions in Encounters between Molecules

Kazuo Takayanagi

I. Introduction	149
II. Quantal Formulation of the Collision Problem	151

III. Rotational Transitions	167
IV. Vibrational Transitions: Colinear Collisions	176
V. Vibrational Transitions: Three-Dimensional Collisions	188
VI. Some Important Problems Requiring Further Study	191
References	192

The Study of Intermolecular Potentials with Molecular Beams at Thermal Energies

H. Pauly and J. P. Toennies

I. Intermolecular Potential	201
II. Molecular Beam Method for the Experimental Determination of Intermolecular Forces	216
III. Recent Advances in Experimental Techniques for Molecular Beam Scattering Experiments	239
IV. Molecular Scattering Theory	257
V. Atom-Atom Scattering Experiments	295
VI. Scattering Experiments Involving Molecules	311
VII. Concluding Remarks	334
List of Symbols	335
References	337

High Intensity and High Energy Molecular Beams

J. B. Anderson, R. P. Andres, and J. B. Fenn

I. Introduction	345
II. The Problem of Intensity	347
III. The Problem of Beam Energy	371
Addendum	384
References	385
AUTHOR INDEX	391
SUBJECT INDEX	402
