

Contents

Preface	iii
Introduction	1

Part A. Quantities and Units for General Use

I. General Considerations	4
A. Introduction	4
B. Stochastic and Non-Stochastic Nature of Quantities	4
C. Mathematical Formalism	5
II. Definitions	7
A. Radiometry	7
B. Interaction Coefficients	8
C. Dosimetry	11
D. Radioactivity	15

Part B. Quantities and Units for Use in Radiation Protection

I. General Considerations	18
II. Dose Equivalent	18
III. Specification of Ambient Radiation Levels	19
References	22
ICRU Reports	23
