

## CONTENTS

Preface

Organization

Research Summaries

1.	"Fusion materials data base" as an interface between reactor design and materials development .....	1
2.	Symposium on fusion reactor materials .....	8
3-1	Symposium on fusion reactor materials and plasma technology. (Part I) .....	10
3-2	Symposium on fusion reactor materials and plasma technology .....	12
4.	Symposium on fusion reactor design and materials .....	14
5.	Symposium on recycling process of hydrogen isotopes at the fusion reactor first wall .....	16
6.	Symposium on study on plasma-wall interactions and surface analysis techniques .....	18
7.	Topical meeting on nuclear problems for the nuclear design of fusion reactors .....	20
8.	Specialist meeting on fusion neutron shielding and skyshine .....	22
9.	Workshop on radiation dosimetry and hazard control for experimental nuclear fusion studies .....	24
10.	Workshop on radiation measurements for nuclear fusion research .....	26
11-1	Workshop on development of intense neutron source .....	29
11-2	Workshop on intense neutron source development for fusion reactor design .....	32
12-1	Symposium on tritium handling technology for fusion reactors and critical discussions on tritium-related problems for burning plasma .....	37
13.	Symposium on studies on tritium handling problems in large scale fusion experimental device .....	41
14.	Symposium on experimental equipments desirable for the investigation of tritium .....	43
15.	Symposium on problems of tritium handling raised from health physics viewpoints .....	45
16-1	Symposium on preparation for setting up guidelines for safety handling of tritium .....	47

16-2	Symposium on preparation for setting up guidelines for safety handling of tritium (II) .....	49
17-1	Symposium on present status and future prospects of research projects at main institutes: tandem mirror project T-10 at Plasma Research Center, University of Tsukuba .....	51
17-2	Symposium on present status and future prospects of research projects at main institutes: Study of toroidal system at Plasma Physics Institute, Kyoto University .....	53
17-3	Symposium on present status and future prospects of research project at main institutes: Compact troid workshop at Plasma Physics Laboratory, Faculty of Engineering, Osaka University .....	55
17-4	Symposium on present status and future prospects of research projects at main institutes: Inertial confinement fusion research at Institute of Engineering, Osaka University .....	57
17-5	Symposium on present status and future prospects of research projects at main institutes: Theoretical study and simulation analysis at institute for fusion theory, Hiroshima University .....	60
17-6	Symposium on present status and future prospects of research projects at main institute: Investigation of projects proposed for next period at the Institute of Plasma Physics, Nagoya University .....	62
18.	Symposium on general symposium of fusion research .....	64
19.	Workshops on new movements in fusion plasma research .....	66
20.	Symposium on progress of inertial confinement fusion research .....	71
21.	Symposium on superconducting magnets and fusion devices .....	73
22.	Symposium on radiation effects on superconducting and insulating materials .....	76
23.	Symposium on problems of materials used under fusion condition .....	78
24.	Workshop on conceptual design of moving ring reactor "KARIN-1".....	80
25.	Discussion on fission - fusion hybrid reactor .....	82
26.	Summer workshops on nuclear fusion studies .....	84
27.	Studies on nuclear fusion research and development strategy .....	90
28.	General symposium of nuclear fusion research .....	94
29-1	Organization of fusion researches in universities .....	96
29-2	Partial charge grouping of fusion researches in universities .....	98
30.	Fusion research activities in Japan. 1. Plasma experiments .....	100
31.	Archival collection of early fusion research in Japan .....	102

32.	Systematic computer code development and improvement .....	104
33.	Promotive task of inter-discipline collaboration studies .....	107
34.	Symposium on international topical meeting on ICF research by light-ion beam .....	109
35.	Evaluation meeting on research activities by this grant-in-aid .....	111
