

Contents

| | |
|--------------------------------------------------------------------------------------------|----|
| 1. Introduction | 1 |
| 2. Predictions for Hard Photon Interactions | 5 |
| 2.1 Photons | 5 |
| 2.1.1 Time of $e \rightarrow e\gamma$ and $\gamma \rightarrow q\bar{q}$ fluctuations | 6 |
| 2.1.2 The Equivalent Photon Approximation | 8 |
| 2.1.3 The Photon Structure Function F_2^γ | 10 |
| 2.1.4 The Vector Meson Dominance Model | 12 |
| Summary | 12 |
| 2.2 The QCD Description of Photon Interactions | 12 |
| 2.2.1 QCD Predictions for Parton Scattering Processes | 13 |
| 2.2.2 Leading Order QCD Predictions for Jet and Particle Cross Sections | 16 |
| 2.2.3 Four Observables to Determine the Parton Kinematics | 20 |
| 2.2.4 Next-to-Leading Order QCD Predictions | 21 |
| 2.2.5 Multiple Parton Interactions | 22 |
| 2.2.6 Event Generators | 25 |
| Summary | 28 |
| 3. Two-γ Physics: | |
| Deep Inelastic Lepton-Photon Scattering | 29 |
| 3.1 Measurements of the Photon Structure Function F_2^γ | 29 |
| Summary | 31 |
| 3.2 Parameterizations of the Parton Distributions in the Photon | 32 |
| Summary | 36 |
| 4. Photon-Proton Interactions at HERA | 37 |
| 4.1 Introduction | 37 |
| 4.1.1 Photoproduction Processes | 37 |
| 4.1.2 Event Kinematics | 38 |
| 4.1.3 The HERA Accelerator | 41 |
| 4.1.4 The H1 and ZEUS Experiments | 42 |
| Summary | 48 |

| | | |
|-----------|-----------------------------------------------------------------------|------------|
| 4.2 | Verification of QCD Predictions in γp Scattering | 48 |
| 4.2.1 | Hard Scattering Processes: Particle Production | 49 |
| 4.2.2 | Hard Scattering Processes: Jet Production | 51 |
| 4.2.3 | Resolved Photon Interactions | 59 |
| 4.2.4 | Direct Photon Interactions | 63 |
| 4.2.5 | The Parton Scattering Angle | 66 |
| 4.2.6 | Higher-Order QCD Effects..... | 68 |
| | Summary..... | 68 |
| 4.3 | Multiple Parton Interactions | 70 |
| 4.3.1 | Double Parton Scattering in pp and $\bar{p}p$ Collisions | 71 |
| 4.3.2 | Inclusive Transverse Energy Cross Section | 72 |
| 4.3.3 | Transverse Energy Flow | 75 |
| 4.3.4 | Energy–Energy Correlations | 76 |
| 4.3.5 | Underlying Event Energy | 77 |
| | Summary..... | 81 |
| 4.4 | Parton Distributions of the Photon | 82 |
| 4.4.1 | Lower Limit on the Parton Fractional Energy | 82 |
| 4.4.2 | Procedures to Extract the Parton Distributions of the Photon | 83 |
| 4.4.3 | Particle Cross Sections | 84 |
| 4.4.4 | Single Differential Jet Cross Sections..... | 86 |
| 4.4.5 | Measurement of the Gluon Distribution | 92 |
| 4.4.6 | Double Differential Di-Jet Cross Section..... | 95 |
| 4.4.7 | Measurement of the Effective Parton Distribution | 97 |
| | Summary..... | 99 |
| 5. | Status and Future | 101 |
| 5.1 | Status: Hard Photoproduction at HERA | 101 |
| 5.2 | Prospects of High Energy Photon Interactions..... | 103 |
| | References..... | 105 |
| | Abbreviations and Variables | 109 |
| | Index | 113 |
