

CONTENTS

Preface v

Contents vii

Contents of Volumes 1–19 ix

135. Y. Ōnuki and A. Hasegawa

Fermi surfaces of intermetallic compounds 1

136. M. Gasgnier

The intricate world of rare earth thin films: metals, alloys, intermetallics, chemical compounds, ... 105

137. P. Vajda

Hydrogen in rare-earth metals, including RH_{2+x} phases 207

138. D. Gignoux and D. Schmitt

Magnetic properties of intermetallic compounds 293

Author Index 425

Subject Index 457
