

TABLE OF CONTENTS

SIR ROBERT WILSON – A DEDICATION

A.J. WILLIS and T.W. HARTQUIST / SIR ROBERT WILSON, C.B.E., FRS	3
---	---

SOLAR PHYSICS

C. JORDAN / The Chromosphere–Corona Transition Region in Late-Type Stars	13
L. GOLUB / The Solar X-Ray Corona	33
E. PRIEST / Coronal Heating by Magnetic Reconnection	49

HOT STARS AND STELLAR X-RAY SOURCES

K.C. SMITH / Chemically Peculiar Hot Stars	77
M.J. SEATON / Levitation	107
I.D. HOWARTH and R.K. PRINJA / Winds of Luminous OB Stars	125
A.J. WILLIS / Wolf–Rayet Stars. Physical, Chemical and Mass Loss Properties and Evolutionary Status	145
A.R. KING / Accretion and Evolution in Close Binaries	169

EXTRAGALACTIC ASTRONOMY

J.E. DYSON, R.J.R. WILLIAMS and J.J. PERRY / Line Forming Regions in Active Galaxies and their Nuclei	187
P.M. GONDHALEKAR, M.R. GOAD and P.T. O'BRIEN / The Broad Emission Line Region in AGNs and Quasars: The Impact of Variability Studies	207

INTERSTELLAR MEDIUM

D.A. WILLIAMS / The Identification of Diffuse Bands	243
T.W. HARTQUIST and A. DALGARNO / Molecular Diagnostics of the Interstellar Medium and Star Forming Regions	267
J.M.C. RAWLINGS / Spectroscopic Evidence For Protostellar Infall	299

PLASMA SPECTROSCOPY AND DIAGNOSIS

J.C. RAYMOND and N.C. BRICKHOUSE / Atomic Processes in Astrophysics	321
N.J. PEACOCK / Fusion Spectroscopy	341
