

CONTENTS

Preface	vii
---------------	-----

EXPOSITORY ARTICLES

Vortex-Wave Dynamics in the Drift Wave-Rossby Wave Problem with Temperature Gradients.....	3
W. Horton	
Numerical Simulation of Geophysical Turbulence and Eddies	37
O. Métais	
Milestones in Rotating Shallow Water Modeling of Rossby Vortices, Plasma Drift Vortices, and Spiral Structures in Galaxies	65
M. V. Nezlin, A. Yu. Rylov, K. B. Titishov, and G. P. Chernikov	
Geostrophic Turbulence and Geophysical Circulations	91
P. B. Rhines	
Turbulence and Structures in Dusty Plasmas.....	113
V. N. Tsytovich	
Resistive Interchange Turbulence.....	141
M. Wakatani	
Jovian Vortex Dynamics from a Historical Perspective	155
J.-I. Yano, J. J. Tribbia, and F. Reichmann	

RESEARCH PAPERS

Low-Dimensional Model of Resistive Interchange Convection in Magnetized Plasma	175
S. Bazdenkov and T. Sato	
2D and 3D Convection Motions from a Local Source in Rotating Fluids	195
B. M. Boubnov	
Two-Dimensional Magnetohydrodynamics and Turbulent Coronal Heating.....	205
P. Dmitruk and D. Gómez	
Turbulent Transport of Passive Tracers and the Onset of Diffusivity	213
D. Gurarie and V. Klyatskin	
Multiple Time Scales in Anisotropic Magnetohydrodynamics.....	235
R. M. Kinney and J. C. McWilliams	
Structures in Driftwave Turbulence and Some Comments on the Related Particle Transport	243
V. Naulin	
Turbulent Countergradient Flow as a Problem in Kinetic Theory.....	255
R. E. Robson and C. L. Mayocchi	

Geophysical Localized Structures Induced by Non-uniform β and/or Zonal Shear Flow.....	269
B. K. Shivamoggi	
Effects of Sheared Rotation on Ion-Temperature-Gradient-Driven Instabilities	275
H. Sugama and W. Horton	
Drift Waves and Drift Wave Instabilities in Dusty Partially Ionized Plasmas	287
V. N. Tsytovich and S. V. Vladimirov	
Author Index.....	303
