

# TABLE OF CONTENTS

Surface Treatments for Expanding Titanium Alloy Application Limits: An Overview .....	1
<i>R. W. Schutz</i>	
Design and the Performance of a New Titanium Duplex Surface Engineering System .....	23
<i>Hanshan Dong, Andrew Bloyce and Tom Bell</i>	
Surface Reaction of Titanium in Living Tissue .....	33
<i>Samuel G. Steinemann</i>	
Production and Properties of Optimized Hydroxyapatite Layers on Titanium .....	47
<i>J. Breme, E. Eisenbarth, and H.F. Hildebrand</i>	
Microstructural Studies of Transformations in the Binary System Ti-N by TEM and in the Ternary System Ti-Zr-N by TEM and Peels.....	59
<i>G.Y. Yang, E. Etchessahar, J.P. Bars, J. Debuigne, R. Portier, Y. Champion, and C. Colliex</i>	
Influence of Nitrogen Pressure on the Formation of a Diffusion Layer in a Solute-Rich Beta-Titanium Alloy .....	65
<i>J.K. Gregory, W. Lengauer and W. Mayr</i>	
High-Temperature Nitridation of Ti-Nb Alloys and Application to RF Superconducting Cavities .....	75
<i>V. Buscaglia, R. Musenich, R. Parodi, W. Lengauer, W. Mayr and A. Tuissi</i>	
Laser Surface Modification of Ti-6Al-4V Alloy in Nitrogen Atmosphere.....	87
<i>R.R.G.M. Pieters, S. Liu and G.R. Edwards</i>	
Phase Stability in Ti-N and Ti-X-N Systems, High Temperature Solid State Diffusion and Scaling in Nitrogen.....	101
<i>E. Etchessahar, J.P. Bars, A. Guillou, D. Ansel and J. Debuigne</i>	
Laser Surface Modification of Ti-6Al-4V in CH <sub>4</sub> /Ar Atmospheres .....	113
<i>J.R. Schnepf, G.R. Edwards and S. Liu</i>	
Modification of the Oxidation Behaviour of Ti-48Al-2Cr by Ion Implantation.....	129
<i>V.A.C. Haanappel, H.J. Schmutzler and M.F. Stroosnijder</i>	
Effect of Exposure on the Microstructure of Coated and Uncoated Orthorhombic Ti-Aluminides .....	139
<i>J.R. Dobbs, M.F.X. Gigliotti and M.J. Kaufman</i>	
Wear Protection of Titanium Alloys .....	155
<i>Andrew Bloyce</i>	

Reciprocating-Sliding Wear Characterization of Ti-Alloys.....	171
<i>Marc Long and H.J. Rack</i>	
Fretting Fatigue Damage Analysis in Ti-6Al-4V.....	187
<i>D.L. Anton, R. Guillemette, J. Reynolds and M. Lutian</i>	
Mechanical Surface Treatments on Titanium Alloys: Fundamental Mechanisms.....	199
<i>L. Wagner</i>	
Laser Shock Peening for Fatigue Resistance.....	217
<i>Allan H. Clauer</i>	
Fatigue Behavior of Shot Peened TIMETAL 1100: Effects of Microstructure and Stress Gradient .....	231
<i>T. Dörr and L. Wagner</i>	
Laser Shock Peening vs Shot Peening - A Damage Tolerance Investigation.....	239
<i>Stephen D. Thompson, David W. See, Chris D. Lykins and Paul G. Sampson</i>	
Overcoming Detrimental Residual Stress in Titanium by the Shot Peening Process .....	253
<i>Thomas J. Meister</i>	
SUBJECT INDEX .....	265
AUTHOR INDEX .....	271
