

## CONTENTS

Summary Report .....	1
Interaction of ionizing radiation with other physical and chemical factors in improving the safety and storage stability of foods .....	15
<i>J. Farkas, E. Adrassy, D. Nanati, K. Horti, L. Mészáros, O. Reichart</i>	
Microbiological safety of tenderized, proteinaceous, semi-processed and processed food prepared from poultry treated with ionizing radiation and other processes .....	33
<i>I. Klinger, M. Lapidot</i>	
Effect of the rate and dose rate of irradiation on the quality of mushrooms, shrimps and marinated poultry .....	41
<i>M. Lacroix, A. Mahrouf, M. Beaulieu, M. Jobin, J. Nketsa-Tabiri, M. Gagnon</i>	
Use of irradiation in combination with preservation techniques to extend the shelf-life of tropical fruits and their products .....	53
<i>A. Noomhorm, S.G. Ilangantileke, I.P. Upadhyay, D.B. Karki, M. Apintanapong</i>	
Preservation of semi-perishable food and development of convenience food using a combination of irradiation and other physicochemical treatments .....	77
<i>N. Choudhury, A.K. Siddiqui, N.A. Chowdhury, Q.M. Youssouf, H. Rashid, A.A. Begum, M.K. Alam</i>	
Effect of gamma radiation on shellstock oysters: Extension of shelf-life and reduction in bacterial numbers, with particular reference to <i>Vibrio vulnificus</i> .....	97
<i>D.W. Dixon, G.E. Rodrick</i>	
Combination of irradiation with other treatments to improve the shelf-life and quality of meat and meat products .....	111
<i>P. Paul, S.P. Chawla, S.R. Kanatt</i>	
Inhibition of toxinogenesis of type A <i>Clostridium botulinum</i> in beef using combined treatments .....	131
<i>J.A. Lasta, H.R. Rodríguez, N.A. Pensel, C.A. Margaría, M.M. Gallinger, C.A. Artuso, M.O. Masana, M.P. Suárez-Rebollo</i>	
Effect of gamma irradiation on the microbiological and organoleptic quality of ready prepared chilled meals .....	159
<i>M.F. Patterson, M.H. Stevenson, I.R. Grant, N.J. McAteer, E.M. Stewart</i>	
Use of ionizing radiation in refrigerated foods .....	181
<i>J. King, G. Figueroa, S. de Pablo</i>	

Use of irradiation in combination with other treatments	
to improve the quality of precooked meals . . . . .	201
<i>M.-H. Desmonts, N. Pierrat, A. Ingersheim, A. Strasser, C. Hasselmann</i>	
Development of shelf stable, processed, low acid food products	
using heat-irradiation combination treatments . . . . .	223
<i>A. Minnaar</i>	
Energy uses in combination processes applying irradiation . . . . .	243
<i>A. Brynjolfsson</i>	
List of Participants . . . . .	253
