

CONTENTS

Preface	vii
Ionization Equilibria in Dusty Plasma Environments.....	1
D. A. Mendis, M. Rosenberg, and V. W. Chow	
Coagulation of Dielectric Dust Grains Due to Variable Asymmetric	
Charging	12
J. W. Manweiler, T. P. Armstrong, and T. E. Cravens	
Fluctuation-Induced Enhancement of Grain Growth Rate in Ionized Gases ...	32
T. Matsoukas and K. Lee	
Confinement Time of Dust Particles in Electrostatic Traps.....	41
C. Mahr and B. Walch	
Fine Particle Plasmas Interacting with Electric and Magnetic Fields	49
T. Yokota	
Charge Calculations of Dust Particles in a Plasma from Their Trajectories	
During Central Collisions	53
U. Konopka, G. E. Morfill, H. M. Thomas, and L. Ratke	
The Vertical Confinement of a Dusty Plasma in the Fisk Plasma Source.....	60
E. Thomas, Jr. and M. Watson	
A Model of Particle Temperature in Dusty Plasmas.....	67
R. A. Quinn and J. Goree	
Preliminary Results from a Laboratory Study of Charging Mechanisms	
in a Dusty Plasma.....	73
C. C. Venturini, J. F. Spann, and R. H. Comfort	
Status of Collective Processes in Dusty Plasmas	81
P. K. Shukla	
Experiments on Ion and Dust Acoustic Waves	97
A. Barkan, N. D'Angelo, R. L. Merlino and C. Thompson	
Simulation of Dust-Acoustic Waves.....	101
D. Winske, M. S. Murillo, and M. Rosenberg	
Wave Propagation in 2-Fluid Dusty Plasma System.....	111
T. Takaishi and K. Kusano	
Dust Particulate-Phonon Interaction.....	117
O. Ishihara	
Waves in Dusty Plasma Crystals with Dipole Interactions	131
M. S. Murillo and M. Rosenberg	
Effect of Strong Coupling on Dust Acoustic Waves and Instabilities.....	135
M. Rosenberg and G. Kalman	
A Note on Electrostatic Ion/Dust Cyclotron Instabilities in Dusty Plasmas	142
V. W. Chow and M. Rosenberg	
Effect of Dust Size Distribution on a Dust-Acoustic Instability in a	
Collisional Plasma	151
L. Iyer and M. Rosenberg	

Instabilities Driven by Ion Drag	157
J. Goree and D. Samsonov	
Very Low Frequency Void Instability in Silane Discharge	168
A. Melzer, A. Homann, A. Piel, V. A. Schweigert, and I. V. Schweigert	
Potential-Driven Vortices of Strongly-Coupled Fine Particles in a Plasma	175
S. Iizuka, G. Uchida, T. Kamimura, and N. Sato	
Temperature-Gradient-Driven Flows of Ions and Neutrals in Dusty Plasmas	179
V. S. Tsypin, S. V. Vladimirov, M. Tendler, C. A. de Azevedo, and A. S. de Assis	
Plasma Crystals and Liquid Plasmas	184
G. E. Morfill, H. M. Thomas, U. Konopka, H. Rothermel, and M. Zuzic	
Laser-Excited Dust Lattice Waves and the Nonequilibrium Phase Transition of the Plasma Crystal	199
A. Melzer, A. Homann, A. Piel, V. A. Schweigert, and I. V. Schweigert	
Inter-Grain Coupling and Grain Charge in Dusty Plasma Coulomb Crystals	216
M. A. Smith, J. Goodrich, U. Mohideen, H. U. Rahman, M. Rosenberg, and D. A. Mendis	
Low-Frequency Modes in the Dust-Plasma Crystal	230
S. V. Vladimirov and N. F. Cramer	
Fine-Particle Coulomb Lattices Formed and Controlled in DC Discharge Plasmas	239
N. Sato, G. Uchida, R. Ozaki, and S. Iizuka	
Pair Correlations in Strongly Coupled Dusty Plasmas	247
X. Wang and A. Bhattacharjee	
Molecular Dynamics Simulations of Dipolar Dusty Plasmas	257
J. E. Hammerberg, B. L. Holian, M. S. Murillo, and D. Winske	
Coulomb Crystals of Oil Droplets in a Paul Trap	265
M. Triplett, R. Younger, and S. Robertson	
Electrostatic Charging of Lunar Dust	271
B. Walch, M. Horányi, and S. Robertson	
Nonlinear Dust-Plasma Interactions of a Cross-Beam System in Interplanetary Space	276
S. Jammalamadaka, J. Araneda, J. F. McKenzie, and H. Grünwaldt	
Laboratory Experiments Relating to Noctilucent Clouds	286
S. Robertson and M. Horányi	
Dust from Jupiter's Magnetosphere	291
M. Horányi	
Captured Dust in Planetary Magnetospheres	299
J. E. Colwell, M. Horányi, and E. Grün	
New Aspects of the Jeans Instability in Dusty Plasmas	307
F. Verheest, M. A. Hellberg, and R. L. Mace	
Charging of Dust in the Very Local Interstellar Medium	321
H. Kirmura and I. Mann	
Author Index	329
