

# Contents

<b>Preface</b>	xiii
<b>I. Flow Control</b>	1
J. KIM	3
Taming Near-Wall Streamwise Vortices: A Modus Operandi for Boundary Layer Control	
A. ORELLANO, H. WENGLE	15
Visualization of Coherent Structures in Manipulated Turbulent Flow over a Fence	
P. S. LARSEN, U. ULLUM, J. J. SCHMIDT	25
Experimental Study of Temporal and Spatial Structures in Fence-on-Wall Testcase	
<b>II. Coherent Structures in Wall-Bounded Flows</b>	39
J. JIMENEZ, A. PINELLI	41
Dynamics of the Structures of Near Wall Turbulence	
H. MAKITA, K. SASSA	51
Three Dimensional Configuration of a Large-Scale Coherent Vortex in a Turbulent Boundary Layer	
W. SCHOPPA, F. HUSSAIN	61
Formation of Near-Wall Streamwise Vortices by Streak Instability	
<b>III. Rotating Flows</b>	79
H. I. ANDERSSON	81
Organized Structures in Rotating Channel Flow	
L. LOLLINI, C. CAMBON, M. MICHARD, L. GRAFTIEAUX	91
Simulation and Identification of Organized Vortices in Rotating Turbulent Flows	

	E. A. CHRISTENSEN, N. AUBRY, J. N. SØRENSEN	101
	On the Space-Time Structure of Axisymmetric Rotating Flows	
	A. SPOHN	109
	Observations on the Early Transition Process in a Closed Cylindrical Container with Rotating Bottom	
	J. A. Van de KONIJNENBERG, A. H. NIELSEN, R. de NIJS, J. J. RASMUSSEN, B. STENUM	119
	Shear Flow Instability in a Rotating Fluid Layer	
<b>IV.</b>	<b>Small-Scale Turbulence and 2-D Flows</b>	129
	M. TANAHASHI, T. MIYAUCHI, J. IKEDA	131
	Identification of Coherent Fine Scale Structure in Turbulence	
	I. HOSOKAWA, K. YAMAMOTO	141
	Evolution of Vortical Structure in Isotropic Turbulence	
	J. R. ANGILELLA, J. C. VASSILICOS	151
	Fractal and Spiral Organised Structures: Spectra and Diffusion	
<b>V.</b>	<b>Geostrophic and Stratified Flows</b>	161
	G. R. SPEDDING	163
	Vortex Wakes in Stably-Stratified Fluids	
	X. J. CARTON, S. M. CORREARD	181
	Baroclinic Tripolar Geostrophic Vortices	
	S. M. CORREARD, X. J. CARTON	191
	Vertical Alignment of Geostrophic Vortices	
	F. O. VANDERMEIRSCH, X. J. CARTON, Y. G. MOREL	201
	The Interaction of a Vortex With a Stable Jet	
<b>VI.</b>	<b>Topological Aspects</b>	211
	M. BRØNS	213
	Streamline Topology of Axisymmetric Flows	

U. C. DALLMANN, H. VOLLMERS, W.-H. SU	223
Flow Topology and Tomography for Vortex Identification in Unsteady and in Three-Dimensional Flows	
R. M. KIEHN	239
Coherent Structures in Fluids are Topological Torsion Defects	
L. M. PORTELA	249
The Vortex Concept and its Identification in Turbulent Boundary Layer Flows	
<b>VII. Experimental Techniques</b>	<b>259</b>
S. AUBRUN, H. H. MINH, H. BOISSON, P. CARLES, J. COULOMB	261
Coherent Structures Identification in Separated and Free Mixing Layers using Hot Wire Rakes	
A. M. FINCHAM	273
3D Mesurement of Vortex Structures in Stratified Fluid Flows	
P. G. ESPOSITO, T. ZHOU, R. A. ANTONIA, P. ORLANDI	289
DNS of a Turbulent Channel Flow to Guide Vorticity Measurements in the Wall Region	
D. S. NOBES, G. J. R. NEWBOLD, Z. T. ALWAHABI	299
Quantitative Planar Imaging of Large Structures Developed Through the Precession of a Jet	
<b>VIII. Vortical Structures</b>	<b>309</b>
O. INOUE, Y. HATTORI	311
Formation of Vortex Rings in Helicopter Rotor Flow Fields	
K. TOYODA, R. HIRAMOTO	319
Three-Dimensional Vortical Structure and Diffusion Mechanism of an Excited Rectangular Jet	

	K. TSUJIMOTO, Y. MIYAKE	329
	Identification of Strong, Near-Wall Quasi-Streamwise Vortices and Their Behavior	
	H. PERSILLON, M. BRAZA, C. WILLIAMSON	339
	Three Dimensional Coherent Structures in the Flow Around a Circular Cylinder by Direct Numerical Simulation	
<b>IX.</b>	<b>POD, LSE and Other Techniques</b>	<b>353</b>
	S. TARDU	355
	Detection and Identification of Near-Wall Coherent Structures Through Conditional-Sampling	
	J. H. CITRINITI, W. K. GEORGE	365
	Organized Structure Dynamics in a Turbulent Round Jet	
	D. EWING, J. H. CITRINITI	375
	Examination of a LSE/POD Complementary Technique using Single and Multi-Time Information in the Axisymmetric Shear Layer	
	D. FAGHANI, A. SEVRAIN, H.-C. BOISSON	385
	Conditional Vortical Structures of a Plane Jet Based on the Complementary LSE/POD Technique	
	B. H. JØRGENSEN	397
	Application of POD to PIV Images of Flow Over a Wall Mounted Fence	
	V. NAULIN	409
	Structure Detection in Driven Drift Wave Turbulence	
	P. MUSCAT, P. DUSSOUILLEZ, P. DUPONT, J. LIANDRAT	419
	A Coherent Structure Detection Method Using the Wavelet Transform	

<b>X.</b>	<b>Low-Dimensional Modelling</b>	431
	L. S. UKEILEY, M. N. GLAUSER	433
	Multi-Point Measurements and Low-Dimensional Models: Tools for the Characterization and Control of Turbulent Flows	
	R. LARDAT, A. DULIEU, W. Z. SHEN, L. TA PHUOC, C. TENAUD, L. CORDIER, J. DELVILLE	447
	Large Eddy Simulation of a Spatially Developing 3D Shear Layer in Incompressible Flow: Comparisons with Detailed Experiments	
	L. CORDIER, J. DELVILLE, J. PÉCHEUX	457
	Low-Dimensional Study of the Flow Between Two Counter-Rotating Disks	
	G. SCIORTINO, M. MORGANTI, M. A. BONIFORTI	467
	Sinuuous and Varicose Modes in Phase-Locked Interaction	
	M. ABDEL-ROHMAN	479
	Analytical Identification of Galloping Effects on Prismatic Bodies	
	M. RAJKOVIĆ	489
	Multiresolution Local Adaptive Method for the Analysis of Spatially Extended Systems	
	M. MANHART	499
	Energy Transfer Between Coherent Structures in the Wake of a Hemisphere	
	<b>List of Participants</b>	509
	<b>Author Index</b>	515
