Chapter 1 Introduction	1
1.1 Overview	1
1.2 Structural localization	7
1.3 Mathematical framework	11
1.4 Numerical methods	17
1.5 Rod mechanics	18
Bibliography	25
Chapter 2 The strut on an elastic foundation	29
An overview of homoclinic modes for the strut on an elastic foundation	
WADEE, M.K.	31
Instability of localized buckling modes in a one-dimensional strut model	
SANDSTEDE, B.	54
Chapter 3 Numerics and discretization	69
Static solitary waves as limits of discretization: a plausible argument	
DOMOKOS, G.	71
Finite element modelling of spatially chaotic structures	
HUNT, G.W., LAWATHER, R. & PROVIDÊNCIA E COSTA, P.	89
Chapter 4 Twisted rods	109
From helix to localized writhing in the torsional post-buckling of elastic rods	
THOMPSON, J.M.T. & CHAMPNEYS, A.R.	111
Lock-on to tape-like behaviour in the torsional buckling of anisotropic rods	
VAN DER HELDEN, G.H.M. & THOMPSON, J.M.T.	133

Spatially complex localization after one-twist-per-wave equilibria in twisted circular rods with initial curvature CHAMPNEYS, A.R., VAN DER HELDEN, G.H.M. & THOMPSON, J.M.T.	157
Elastic rods, rigid bodies, quaternions and the last quadrature KEHRBAUM, S. & MADDOCKS, J.H.	181
The writhing of circular cross-section rods: undersea cables to DNA supercoils STUMP, D.M., FRASER W.B. & GATES, K.E.	201
Nonlinear dynamics of filaments. IV — spontaneous looping of twisted elastic rods GORIELY, A. & TABOR, M.	235
Chapter 5 Cylindrical shells	255
Localized buckling in long axially loaded cylindrical shells HUNT, G.W. & LUCENA NETO, E.	257
Computation of localized post buckling in long axially compressed cylindrical shells LORD, G.J, CHAMPNEYS, A.R. & HUNT, G.W.	271
Homoclinic and heteroclinic orbits underlying the post-buckling of axially-compressed cylindrical shells HUNT, G.W., LORD, G.L. & CHAMPNEYS, A.R.	285
Chapter 6 Other buckling problems	299
Localization and mode interaction in sandwich structures HUNT, G.W. & WADEE, M.A.	301
Homoclinic and heteroclinic solutions of upheaval buckling HUNT, G.W. & BLACKMORE, A.	321
Folding processes and solitary waves in structural geology HUNT, G.W., MÜHLHAUS, H.-B. & WHITING, A.I.M.	332
Chapter 7 Solitary waves	349
On the dynamics of flexure and stretch in the theory of elastic rods COLEMAN, B.D., DILL, E.H. & SWIGGON, D.	351
Travelling waves in a nonlinearly suspended beam: some computational results and four open questions CHEN, Y. & MCKENNA, P.J.	379
