CONTRIBUTORS	vii
--------------------	-----

Electronic Wavepackets

R. R. Jones and L. D. Noordam

I. Introduction	1
II. Rydberg Wavepackets	12
III. Conclusions	35
IV. Acknowledgments	35
V. References	36

Chiral Effects in Electron Scattering by Molecules

K. Blum and D. G. Thompson

I. Introduction	40
II. Chiral Objects and Their Symmetries: True and False Chirality	44
III. Definitions and Fundamental Symmetries of Spin-Dependent Amplitudes	49
IV. Experimental Observables: Oriented Molecules	53
V. Experimental Observables: Randomly Oriented Target Systems	58
VI. Experimental Observables: Attenuation Experiments	62
VII. The Physical Cause of Chiral Effects	66
VIII. Theoretical and Computational Details	71
IX. Results of Numerical Calculations	75
X. Experimental Results	81
XI. Conclusions and Outlook	84
XII. Acknowledgments	84
XIII. References	85

Optical and Magneto-Optical Spectroscopy of Point Defects in Condensed Helium

Serguei I. Kanorsky and Antoine Weis

I. Introduction	88
II. Structure of the Point Defects	90
III. Implantation Techniques	95
IV. Optical Spectroscopy	97
V. Magnetic Resonance Spectroscopy	111

VI. Concluding Remark	117
VII. References	117

Rydberg Ionization: From Field to Photon

G. M. Lankhuijzen and L. D. Noordam

I. Introduction	121
II. DC Field Ionization	126
III. Ramped Field Ionization	131
IV. Microwave Ionization	135
V. THz Ionization	141
VI. Far Infrared Ionization	143
VII. Optical Radiation	146
VIII. Open Questions	150
IX. Acknowledgment	150
X. References	150

Studies of Negative Ions in Storage Rings

L. H. Andersen, T. Andersen, and P. Hvelplund

I. Introduction	155
II. Lifetime Studies of Negative Ions	158
III. Electron-Impact Detachment From Negative Ions	172
IV. Interactions Between Photons and Negative Ions	185
V. Acknowledgments	188
VI. References	188

Single-Molecule Spectroscopy and Quantum Optics in Solids

W. E. Moerner, R. M. Dickson, and D. J. Norris

I. Introduction	193
II. Physical Principles and Optimal Conditions	196
III. Methods	206
IV. Quantum Optics	221
V. Problems and Promise for Room Temperature	228
VI. References	232
SUBJECT INDEX	237
CONTENTS OF VOLUMES IN THIS SERIES	247
