PREFACE	ix

Mechanisms of Electron Transport in Electrical Discharges and Electron Collision Cross Sections

Hiroshi Tanaka and Osamu Sueoka

I. Introduction	2
II. Major Characteristics of Collisions and Reactions in Discharges and Plasmas	3
III. Cross Sections and Reaction Rate Constants of Atomic and Molecular Processes	6
IV. Measurements of Electron Collision Cross Sections and Illustrative Results	8
V. Measurements of Partial Cross Sections with the Use of the Appearance Potential in Mass Spectrometry	23
VI. Measurements of Cross Sections for the Production of Positive and Negative Ions	25
VII. Outlook	29
VIII. Acknowledgments	30
IX. References	31

Theoretical Consideration of Plasma-Processing Processes

Mineo Kimura

I. Introduction	33
II. An Example of Electron-Molecule Scattering	34
III. Overview of Theoretical Framework	37
IV. Current Level of the Accuracy of Theoretical Approaches	49
V. Excited Species	53
VI. Perspective and Conclusion	55
VII. Acknowledgment	56
VIII. References	56

Electron Collision Data for Plasma-Processing Gases

Loucas G. Christophorou and James K. Olthoff

I. Introduction	59
II. Plasma-Processing Gases	60
III. Data Assessment	65
IV. Assessed Cross Sections and Coefficients	83

V. Boltzmann-Code-Generated Collision Cross-Section Sets	93
VI. Conclusions	95
VII. References	96

Radical Measurements in Plasma Processing

Toshio Goto

I. Introduction	99
II. Summary of Recent Developments in Measurement Methods for Radicals in Plasma Processing	100
III. Details of <i>in Situ</i> Measurement Methods for Radicals in Processing Plasmas	102
IV. Representative Results of CF_x and SiH_x Radicals in Processing Plasmas	108
V. Conclusions	123
VI. References	124

Radio-Frequency Plasma Modeling for Low-Temperature Processing

Toshiaki Makabe

I. Introduction	127
II. Radio-Frequency Electron Transport Theory	128
III. Modeling of Radio-Frequency Plasmas	141
IV. Conclusions	153
V. Acknowledgments	153
VI. References	153

Electron Interactions with Excited Atoms and Molecules

Loucas G. Christophorou and James K. Olthoff

I. Introduction	156
II. Electron Scattering from Excited Atoms	159
III. Electron-Impact Ionization of Excited Atoms	200
IV. Electron Scattering from Excited Molecules	213
V. Electron-Impact Ionization of Excited Molecules	223
VI. Electron Attachment to Excited Molecules	226
VII. Concluding Remarks	282
VIII. Acknowledgment	283
IX. Appendix A	283
X. References	285
SUBJECT INDEX	295
CONTENTS OF VOLUMES IN THIS SERIES	305
