Preface	ix
---------------	----

PART 1: DUSTY PLASMAS

Collective Processes in Complex Plasmas	3
P. K. Shukla (<i>invited review</i>)	
Waves in Dusty Plasmas and the Concept of Fugacity.....	13
N. N. Rao (<i>invited review</i>)	
The Alfvén Resonance and Surface Waves in Dusty Space and Astrophysical Plasmas	23
N. F. Cramer and S. V. Vladimirov (<i>invited review</i>)	
Non-ideal Magnetized Dusty Plasma: Self-Similar Expansion.....	33
R. Bharuthram, N. N. Rao, and S. R. Pillay	
The Effect of Dust Charge Inhomogeneity on Low-Frequency Modes in a Strongly Coupled Plasma	41
T. Farid, A. A. Mamun, and P. K. Shukla	
Auroral Emissions Due to a Dusty Plasma Instability	48
L. J. Gelinas, M. C. Kelley, and M. F. Larsen	
Jeans Modes in Dusty Plasmas with Dust Mass Distributions.....	53
G. Jacobs, F. Verheest, M. A. Hellberg, S. R. Pillay, and V. V. Yaroshenko	
Crossfield Driven Electrostatic Instabilities in a Two-Dust Component Plasma	61
S. K. Maharaj and R. Bharuthram	
Linear and Non-linear Dust Acoustic Waves in Non-ideal Dusty Plasmas with Grain Charge Fluctuations.....	68
S. R. Pillay, N. N. Rao, and R. Bharuthram	
Nonmodal Phenomena in Differentially Rotating Dusty Plasmas	76
S. Poedts and A. D. Rogava	
Dust Acoustic and Gravity Modes in Barometric Equilibrium.....	84
A. A. Shaikh, J. R. Bhatt, and N. N. Rao	
Janus Faces of Jeans Instabilities.....	91
F. Verheest, V. M. Čadež, and G. Jacobs	
Electrostatic Waves in Dusty Self-Gravitational Flows Immersed in an Electron-Ion Plasma.....	99
V. V. Yaroshenko	

PART 2: SOLAR PLASMAS

Magnetohydrodynamic Waves in Laboratory and Astrophysical Plasmas	109
