Preface	ix
Multifield Theories in Mechanics of Solids	
Paolo Maria Mariano	
I Introduction	2

I. Introduction	2
II. Configurations and Balance of Interactions	9
III. Elastic Materials with Substructure	26
IV. Balance in Presence of Discontinuity Surfaces	33
V. Constitutive Restrictions	38
VI. Evolution of Defects and Interfaces in Materials with Substructure	42
VII. Crack Propagation in Materials with Substructure	53
VIII. Latent Substructures	68
IX. Examples of Specific Cases	73
Acknowledgments	88
References	88

Molecular Dynamics Simulation of Nanoscale Interfacial Phenomena in Fluids

Chang-Lin Tien and Jian-Gang Weng

I.	Introduction	96
II.	Molecular Dynamics Simulation Techniques	. 97
III.	Liquid–Vapor Interfaces	103
IV.	Liquid–Liquid Interfaces	122
V.	Liquid–Solid Interfaces	130
VI.	Three-Phase Systems	136
VII.	Other Interfacial Phenomena	139
VIII.	Concluding Remarks	140
	Acknowledgments	141
	References	141

Contents

Fracture of Piezoelectric Ceramics

Tong-Yi Zhang, Minghao Zhao, and Pin Tong

I.	Introduction	148
II.	Basic Equations	152
III.	Two-Dimensional Electroelastic Problems and Stroh's Formalism	162
IV.	Piezoelectric Dislocation and Green's Function	186
V.	Conductive Cracks	199
VI.	Interface Cracks	209
VII.	Three-Dimensional Electroelastic Problems	220
VIII.	Nonlinear Approaches	236
IX.	Experimental Observations and Failure Criteria	255
Χ.	Concluding Remarks	274
	Acknowledgments	279
	References	279

On Theoretical Modeling of Aquatic and Aerial Animal Locomotion

Theodore Yaotsu Wu

I. Introduction	291
II. Subdivisions of Hydrodynamic Theories for Aquatic and Aerial Locomotion	296
III. Resistive Theory of Aquatic Locomotion	300
IV. Classical Slender-Body Theory of Fish Locomotion	301
V. A Unified Approach to Nonlinear Theory of Flexible	
Lifting-Surface Locomotion	314
VI. A Unified Nonlinear Theory of Two-Dimensional Flexible	
Lifting-Surface Locomotion	316
VII. On Experimental Differentiation between Thrust and Drag	
in Fish Locomotion	333
VIII. Scale Effects in Energetics of Aquatic Locomotion	338
IX. Conclusion and Outlook	347
Acknowledgments	350
References	350
Author Index	355
Subject Index	363
