

American Power Conference

Table of Contents

Volume 62 – 2000

Transmission & Power Markets

01. Panel - Market Structure

Sponsored by APC

a. **Opening Remarks, Paul McCoy (Moderator)** ..... \*

b. **Becky A. Kilbourne, Director of Market Development, California Power Exchange, Pasadena, CA** ..... \*

c. **Edward G. Cazalet, CEO, Automated Power Exchange, Inc., Cupertino, CA** ..... \*

d. **Jolly Hayden, Dynegy, Houston, TX** ..... \*

e. **Ralph D. Masiello, Information Systems Div. Vice President, ABB Power T&D Co.** ..... \*

Transmission & Power Markets

02. Market Strategies for Long-Term Planning

Sponsored by APC

a. **Interconnecting Merchant Power Plants - A Transmission Company Perspective, Kris W. Zadlo, Kenneth J. Rooney, and Robert D. Koszyk, ComEd, Maywood, IL** ..... 1

b. **New Adventures in Southwestern Minnesota: Lakefield Junction Generating Station Capacity Addition Project, Bhaskar Ray, Northern States Power Co., Minneapolis, MN; Rod Leas, NRG Energy Inc.; and Randy Cullison, Tenaska Inc.** ..... 6

c. **Regional Transmission Planning (WIRE Study) for Wisconsin Reliability, Chris Plante, Wisconsin Public Service Co., Green Bay, WI; Dave Grover, Northern States Power Co., Minneapolis, MN** ..... 12

d. **Voltage Stability Analysis of the MAPP System, Rodolfo J. Koessler, Yuriy Kazachkov, James Feltes, Bhaskar Ray, and Larry Brusseau, Northern States Power Co., Minneapolis, MN** ..... 18

e. **Transmission Company Operations Under Regional Transmission Organizations, Jose Delgado, Vice President, Electric System Operations, Wisconsin Electric Power Co., Milwaukee, WI** ..... \*

f. **Introduction to the NERC Control Performance Standard, Stephen P. Hoffman, Senior Engineer, Transmission Operations, ComEd, Lombard, IL** ..... 28

Transmission & Power Markets

03. R&D, Education and Training

Sponsored by APC

a. **University Role, Peter W. Sauer, Professor, Dept. of Electrical and Computer Engineering, University of Illinois-Urbana, Urbana, IL** ..... \*

b. **EPRI Role, Stephen Gehl, Director, Strategic Technologies & Alliances, Palo Alto, CA** ..... \*

c. **Utility Role, William F. Naughton, Director of R&D, ComEd, Chicago, IL** ..... \*

d. **Commercial Industry Role, Gail Losianowycz, Motorola University, Schaumburg, IL** ..... \*

e. **Training/Tools Provider Role, Johnny R. Willis, Executive Consultant and Barbara E. White, Senior Administrator, Power Technologies, Inc., Schenectady, NY** ..... 34

Generation Enterprise & Regulation - Nuclear

04. Panel - Acquisitions and Consolidations in the Nuclear Industry

Sponsored by APC

a. **Tom Flaherty, National Partner - Energy Consulting, Deloitte Consulting, Dallas, TX** ..... \*

b. **Michael B. Sellman, Senior V.P. & Chief Nuclear Officer, Wisconsin Electric Power Co., and President, Nuclear Management Company, LLC, Milwaukee, WI** ..... \*

c. **The Nuclear Energy Business: Maximizing Value, Minimizing Uncertainty, Marvin S. Fertel, Senior Vice President, National Energy Institute, Washington, DC** ..... \*

\* Paper not available.

- d. Gary Leidich, Executive Vice President, Institute for Nuclear Power Operations, Atlanta, GA ..... \*
- e. Duncan Hawthorne, Vice President, AmerGen Nuclear Acquisitions, Wayne, PA ..... \*
- f. David Rehn, Director, Mergers & Acquisitions, Duke Energy Services, Houston, TX ..... \*

Generation Enterprise & Regulation

**05. Asset Management**

Sponsored by APC

- a. **Financial Modeling Issues in Acquisition or Development of Generation Assets**, Kenneth W. Davis, Senior Financial Consultant, Sargent & Lundy, LLC, Chicago, IL ..... 37
- b. **Optimizing Power Generation Using the Black Box Specification Method**, Hans E. Kimmel, Vice President, EBARA International Corp., Sparks, NV ..... 43
- c. **Valuing Generation Planning Projects for Electric Utilities Based on Real Options**, Chung-Hsiao Wang and K. Jo Min, Dept. of Industrial and Manufacturing Systems Engineering, Iowa State University, Ames, IA ..... 51
- d. **Lowering Industry's Cost of Energy: Improving Operating Cost Margins without Capital Cost Exposure-Pulverized Coal Injection for Iron Making Blast Furnaces**, T.W. Brunner, Project Manager, DTE Energy Services, Ann Arbor, MI: A.J. Cirillo, Director of Metals Operations, Raytheon Engineers & Constructors, Philadelphia, PA ..... 57
- e. **The Use of Specialized Diagnostics Tools as a Pre-requisite for Components Re-use and Upgrading**, Luciano Lazzeri, Chief Engineer, Ansaldo Energia, Genova, ITALY ..... 61

Generation Enterprise & Regulation

**06. Environment 1 - NOx Control of Coal Fired Boilers**

Sponsored by APC

- a. **The Role of the Global System Design in the Abatement of NOx in a Boiler**, R. DeSantis, L. Lazzeri, and C. Piana, Ansaldo Energia, Genova, ITALY ..... 66
- b. **NOx Reductions in the Cofiring of Coal and Emulsified Fuels**, W.C. Tao and T. Houlihan, Sr. Vice President, A-55 Clean Fuels, Reno, NV: Richard Ellis, Sr. Vice President, St. Laurent Paper Products Corp., West Point, VA: Anthony Conti, Engineering Manager, Electric Power Technologies, Montvale, NJ ..... \*
- c. **Low NOx Burners & Burner Modifications for Cost Effective Title IV NOx Control**, Todd A. Melick, Roy Payne and Robert E. Sommerlad, GE Energy & Environmental Research Corp., Irvine, CA ..... 72
- d. **Updated Experience Using Combustion Modifications for Utility Boiler NOx Emissions Control**, Blair A. Folsom, Don Engelhardt, Chris Latham, David Moyeda, Roy Payne, Todd Summer, and Robert E. Sommerlad, GE Energy and Environmental Research Corp., Irvine, CA: Harry Brocato, Baltimore Gas & Electric, Baltimore, MD: Mike Maziarz, Conectiv; and Courtney Walton, Tennessee Valley Authority, Chattanooga, TN ..... \*
- e. **New Cost Effective SCR Catalysts to Meet Challenges of US Coals**, Bryan Kepner, Chief Technology Officer, Apyron Technologies, Inc., Atlanta, GA: Mark Mitchell, Associate Professor, Dept. of Chemistry, Clark Atlanta University, Atlanta, GA ..... \*
- f. **Wisconsin Electric Power Company and OIG NOx Compliance Strategy Program**, Robert W. Tisone, Sr. Vice President, Environmental Elements Corporation, Baltimore, MD, Al Mihm, Fossil Engineering, Wisconsin Electric and Joe Langone, Vice President & General Manager, DB Riley ..... \*

Generation Enterprise & Regulation

**07. Merchant Plants 1 - Panel on Business Perspective**

Sponsored by APC

- a. **Merchant Plant Market Overview**, Jean-Louis Poirier, Senior Advisor, PHB Hagler Bailly, Arlington, VA ..... 78
- b. **Strategies/Freestone County, Texas Project**, James P. Burnette, Director, North American Business Development, Entergy Power Group, The Woodlands, TX ..... \*
- c. **Maximizing Value Through Portfolio Management**, John D. Jones, Vice President, Asset Deployment, InterGen, North America, Houston, TX ..... \*
- d. **Legal/Contractual Issues Associated with Financing Merchant Power Plants**, Michael B. Barr, Esq., Partner and Head of Project Finance Practice Group, Hunton & Williams, Washington, DC ..... \*
- e. **Status of Privatization and Merchant Power in India**, M.K. Pande, Senior Manager and A.K. Kaul, Asst. Manager, Tata Electric Companies, Mumbai, INDIA ..... 82

\* Paper not available.

**08. Gas Turbine/Combined Cycles - Technology Evolution**

Sponsored by APC

**a. Hot Gas Filter Advancements for Advanced Power Systems**, T.E. Lippert, R.A. Newby, M.A. Alvin, G.J. Bruck, Z.N. Sanjana, and E.E. Smeltzer, Science & Technology Center, Siemens Westinghouse Power Corp.,Pittsburgh,PA.....88

**b. Feasibility of Medium BTU Gases as Gas Turbine Fuel for Combined Cycle Power Plants**, Walter I. Serbetci, Sargent & Lundy LLC., Chicago, IL ..... 94

**c. Economics of Gas Turbine Inlet Cooling for Combined Cycle Plants**, Harvey Wen and Ram Narula, Bechtel Power Corp., Frederick, MN ..... 100

**d. Wet Compression for Gas Turbines: Power Augmentation and Efficiency Update**, Elliott Smith, Senior Marketing Engineer, Bruce Rising, Senior Project Marketing Engineer, and Scott Cloyd, Mgr., GT Modernizations Engineering; Siemens Westinghouse Power Corp., Orlando, FL; Steve Jasper, Energy Systems Technology Center, The Dow Chemical Company, Freeport, TX; Bill Miller, Patent Dept., The Dow Chemical Company, Midland, MI; and David Geoffroy, Turbine Engineer, The Dow Chemical Company, Plaquemine, LA ..... 106

**e. Gas Turbine Rotor Straightening - Case History**, Z. Mazur, C. Marino-Lopez and J. Kubiak, Instituto de Investigaciones Electricas, Morelos, MEXICO ..... 112

Distribution & Distributed Resources

**09. Improving Reliability 1**

Sponsored by APC

**a. Fault Detection in Multi-Fed Underground Secondary Networks**, R. Natarajan, Consulting Engineer, Electric Systems Technology Institute, ABB Power T&D Co., Raleigh, NC ..... 117

**b. Non-Destructive Testing of Power Cables**, Stephen Peschel, High Voltage, Inc., Copake, NY ..... \*

**c. Analysis of Induced Voltages in 230Kv Substation Control Cables**, R. Natarajan and D. Martin, Electric Systems Technology Institute, ABB Power T&D Co., Raleigh, NC; R. Sanjayan, ABB Contracting Co., Riyadh, SAUDI ARABIA.. 122

**d. The Impact of Lightning Strikes on Transmission Static Wire Grounding at Substations**, Stephen G. Lodwig and Parvez Rashid, Engineering Construction & Maintenance Division, ComEd, Willowbrook, IL ..... 127

**e. A New ATP Add-On for Modeling Internal Faults in Power Transformers**, Mladen Kezunovic, Professor, Electrical Engineering Dept., Texas A&M University, College Station, TX; Bogdan Kasztenny, Senior Application Engineer, General Electric, Ontario, CANADA; Zijad Galijasevic, Senior Systems Engineer, Test Laboratories International, Inc., College Station, TX; Donna Williams, Systems Operations Specialist, Illinois Power Co., Decatur, IL ..... 132

**f. Comparing Field Data and the IEEE Standard for Loading Capability of Transformers**, Maria A. Padula, Graduate Student, Noel N. Schulz, Assistant Professor, and Dennis Wiitanen, Professor, Electrical Engineering Dept., Michigan Technological University, Houghton, MI ..... 138

**g. Overloading, Loss-of-Life, and Assessment of Remaining Life Expectancy of Oil-Cooled Transformers**, Sarunpong Pansuwan and P.K. Sen, Professor & Chairman, Dept. of Electrical Engineering, University of Colorado-Denver, Denver, CO; John P. Nelson, ..... 143

Distribution & Distributed Resources

**10. Distribution Information & Automation 1**

Sponsored by APC

**a. Information Management for an Automated Meter Reading System**, Rochelle A. Fischer and Noel N. Schulz, Assistant Professor, Electrical Engineering Dept., Michigan Technological University, Houghton, MI; Gordon H. Anderson, Electric Meter Systems, Northern States Power Co., Minneapolis, MN ..... 150

**b. Keeping Your Customers Out of the Dark**, Lynn Andersen and Dean Hengst, ComEd, Chicago, IL ..... 155

**c. Application of Spectral Analysis to Isolate the Effect of the Temperature in Electrical Consumption of Residential Customers**, Gaudencio Ramos Niembro and Rodrigo Diaz Acosta, Electrical Research Institute of Mexico, Morelos, MEXICO ..... 159

**d. Long -Term Dynamics Evaluation in Restoring Customer Loads**, A. Ketabi and R. Feuillet, Laboratoire d'Electrotechnique de Grenoble, Saint Martin d'Herès, FRANCE; A.M. Ranjbar, Dept. of Electrical Engineering, Sharif University of Technology, Tehran, IRAN ..... 165

\* Paper not available.

11. Distributed Resources 1 - Technologies

Sponsored by APC

- a. **Distributed Generation - Research and Opportunities**, Patricia Hoffman, Program Director, U.S. Department of Energy, Washington, DC ..... \*
- b. **Distributed Generation - Prospects for Economy and Reliability**, Dan Kincaid, Business Development Manager, and William E. Liss, Team Leader, GRI, Chicago, IL ..... \*
- c. **Technologies for Distributed Resources**, Joseph Iannucci, Principal, Distributed Utility Associates, Livermore, CA . \*
- d. **Residential Fuel Cell Economics**, Mark Richards, Economist, Institute of Gas Technology, DesPlaines, IL and Roger Gyger, Program Manager, Distributed Generation, NiSource, Merrillville, IN ..... 171
- e. **Just in Time Key Account Program**, Ronald D. Earl, General Manager & CEO, Illinois Municipal Electric Agency, Springfield, IL ..... \*
- f. **Opportunities and Challenges for High Voltage Direct Current (DC) Electricity System - In the Light of Deregulation, Summer Power Outages, Power Marketeers and Demand for Reliable Electric Power**, Goray Mookerjee, Visiting Scientist, US Department of Energy, Washington, DC ..... 177

Transmission & Power Markets

12. Panel - Transmssion Congestion Management

Sponsored by APC

- a. **Opening Remarks on Congestion Management**, Steven T. Naumann, Manager, T&D Regulatory Services, ComEd, Chicago, IL ..... \*
- b. **Congestion Management and Regional Transmission Organizations**, Kevin Kelly, Director, Policy Innovation & Communication Office of Markets, Tariffs, and Rates, Federal Energy Regulatory Commission, Washington, DC ..... \*
- c. **Congestion Management From the Perspective of Large End-Users**, James R. Dauphinais, Senior Consultant, Brubaker & Associates, Inc., St. Louis, MO ..... \*
- d. Marjorie R. Philips, PECO Energy Company, Power Team, King of Prussia, PA ..... \*
- e. Reem Fahey, Midwest Market Design Specialist, Edison Mission Marketing & Trading, Chicago, IL ..... \*

Transmission & Power Markets

13. Transmission Issues of Mergers & Acquisitions

Sponsored by APC

- a. **Overview of Market Power Analysis**, Matthew E. Arenchild, Ph.D., Senior Consultant, PHB Hagler Bailly, Washington, DC ..... \*
- b. **Power System Engineering for Reliability with GENCOS and TRANSCOS**, Carson W. Taylor, Principal Engineer, Transmission Operations & Planning, Bonneville Power Administration, Vancouver, WA ..... 183
- c. **Transmission Issues of Mergers & Acquisitions**, Donna M. Attanasio, Partner, Dewey Ballantine, LLP, Washington, DC ..... \*
- d. **Transmission Issues of Mergers & Acquisitions**, Ricardo Austria, Director of Consulting Services, Power Technologies, Inc., Schenectady, NY; Bhaskar Ray, Senior Specialty Engineer, Northern States Power Co., Minneapolis, MN ..... 184
- e. **Transmission Issues of Mergers and Acquisitions - PUC Perspective**, Craig A. Glazer, Commissioner, Ohio Public Utilities Commission, Columbus, OH ..... \*

Generation Enterprise & Regulation - Nuclear

14. Nuclear Life Extension Challenges

Sponsored by APC

- a. **License Renewal - Challenges**, Doug Walters, Senior Project Manager, License Renewal, Nuclear Energy Institute, Washington, DC ..... \*
- b. **License Renewal - Calvert Cliffs**, Barth W. Doroshuk, President, Constellation Nuclear Services, Inc., Crofton, MD . \*
- c. **Nuclear Plant Life Cycle Management**, John J. Carey, Senior Program Manager, Nuclear Plant Life Cycle Management, Electric Power Research Institute, Palo Alto, CA ..... \*

\* Paper not available.

<b>d. License Renewal - Oconee</b> , Gregory D. Robison, Project Manager, Duke Power Co., Charlotte, NC .....	*
<b>e. The Challenges of Dry Spent Fuel Storage</b> , Charles W. Pennington, Group Senior VP, Engineering and Design Services, NAC International, Norcross, GA .....	189
<b>f. License Renewal Regulation</b> , Christopher Grimes, Chief, License Renewal & Standardization Branch, US Nuclear Regulatory Commission, Rockville, MD .....	*
<b>g. License Renewal - Arkansas Nuclear One</b> , Garry Young, Senior Lead Engineer, Entergy Operations, Russellville, AR .....	*

Generation Enterprise & Regulation - Nuclear

**15. Changing Regulatory Environment, Risk-Based Regulation**

Sponsored by APC

<b>a. Dry Cask Probabilistic Risk Assessment</b> , Albert Machiels, Area Manager, Electric Power Research Institute, Palo Alto, CA .....	*
<b>b. Risk-Based Regulation</b> , Steve Floyd, Senior Director, Regulatory Reform and Strategy, Nuclear Energy Institute, Washington, DC .....	*
<b>c. Self Evaluations and Corrective Actions in the New Oversight Process</b> , Eric Eckstein, Deputy Director, Plant Evaluation Div., Institute of Nuclear Power Operations, Atlanta, GA .....	*
<b>d. James Hill</b> , Director, Generation Quality Services, Northern States Power, Minneapolis, MN .....	*
<b>e. Exemption From 10 CFR50 Special Treatment Requirements</b> , Stephen L. Rosen, Manager, Risk Management & Industry Relations, STP Nuclear Operating Company, Wadsworth, TX .....	*
<b>f. Risked Based Regulation</b> , Scott F. Newberry, U.S. Nuclear Regulatory Commission, Rockville, MD .....	*

Generation Enterprise & Regulation

**16. Environment 2 - SO3 Injection Systems for Flue Gas Conditioning of Low Sulfur Coals - Advances, and Field Experiences**

Sponsored by APC

<b>a. The Hennepin X-TIE SO3 Plant</b> , Randy Short, Illinois Power, Decatur, IL: Robert Wright, Wilhelm Environmental Technology, Inc., Indianapolis, IN .....	*
<b>b. Preparation, Handling, Storage, and Combustion of Formed Elemental Sulfur</b> , Arlie J. Henry, Manager, Industrial Sales, Martin Resources, Inc., Navarre, FL .....	*
<b>c. Engineering and Cost Analysis for Formed or Molten Sulfur Based SO3 Gas Plants</b> , Sunil Dave, Sargent & Lundy LLC, Chicago, IL .....	*
<b>d. Performance and Experience of the SO3 Plant at Associated Electric's Thomas Hill Station Unit #3</b> , Tim Price, Associated Electric Cooperative, Inc., Thomas Hill Station, Clifton Hill, MO .....	192
<b>e. Conversion of SO2 Feedstock Based SO3 FGC Systems for Formed Sulfur</b> , Jim Miller, Indianapolis Power & Light Co., Indianapolis, IN .....	*

Generation Enterprise & Regulation

**17. Merchant Plants 2 - Technical Aspects**

Sponsored by APC

<b>a. Linking Technology to Demand</b> , Frederick Post, Business Development Manager, GE Power Systems, Schenectady, NY .....	*
<b>b. Strategies for the Open Power Market</b> , George Keller, Senior Consulting Engineer, Burns & Roe Co., Oradell, NJ: Peter Fitzgerald, Project Manager, Newport Power Station, Newport, AUSTRALIA .....	196
<b>c. New Coal Tests for the Emerging Deregulated Electric Market</b> , Rod Hatt, Commercial Testing & Engineering Co., Lexington, KY .....	*
<b>d. Energy Deregulation and Permitting of Merchant Power Plants</b> , Suresh Chandran and John Weber, Philip Services Corp., Ft. Washington, PA: W. David Jenkins, Cinergy Corp, Plainfield, IN .....	203
<b>e. Optimal Power Flow Using a Genetic Algorithm and Linear Algebra: Minimization of a Combination of Costs</b> , Reid S. Maust, Allegheny Energy Supply Company, and R.L. Klein, CSEE Dept., West Virginia University, Morgantown, WV .....	207

\* Paper not available.

**18. Improving Reliability 2 & Power Quality**

Sponsored by APC

- a. The Impact of Substation Grounding Design on Control Circuits**, Stephen G. Lodwig, Senior Engineer, ComEd, Willowbrook, IL ..... 218
- b. Computation of Overvoltages Using Electromagnetic Field Approach During Back-to-Back Capacitor Switching Operations in a Substation**, W. Ruan, F.P. Dawalibi, S. Fortin and J. Ma, Safe Engineering Services & Technologies Ltd., Quebec, CANADA ..... 218
- c. Cable Installation Engineering**, John Fee, American Polywater Corp., Stillwater, MN ..... \*
- d. Solutions to Power Quality and Reliability Problems**, C.A. McCarthy, Power System Reliability Engineer, P.M. Avery, Director Division Marketing, R.D. Willoughby, Manager Systems Engineering, and M.T. Bishop, Supervisor Reliability Improvement Studies, Cooper Power Systems, Waukesha, WI ..... 224
- e. Improving Power Quality: A Total Owning Cost Prospective**, Robert C. Degeneff, Renesselaer Polytechnic Institute, Troy, NY; Steven M. Raedy, Utility Systems Technologies, Niskayuna, NY ..... 231
- f. Study of Power Quality Using Virtual Instruments**, Nikunja K. Swain, Associate Professor, and James A. Anderson, Dean, South Carolina State University, Orangeburg, SC; Raghu Korrapati, School of Business Technology, Webster University, Fort Jackson, SC ..... 237

Distribution &amp; Distributed Resources

**19. Distribution Information & Automation 2**

Sponsored by APC

- a. Extending EPRI's CIM into Distribution System**, Biao Li and Noel N. Schulz, Assistant Professor, Electrical Engineering Dept., Michigan Technological University, Houghton, MI; Linda J. Murphy and Ronald W. Bijoch, Northern States Power Co., Minneapolis, MN ..... 243
- b. Intelligent Software Components for Power Distribution Automation**, Orlando Sousa, Zita Vale, and Carlos Ramos, Instituto Superior de Engenharia do Porto, Porto, PORTUGAL ..... \*
- c. An Approach for Probabilistic Distribution Power Flow**, Haijun Liu, Cooper Power Systems, Franksville, WI; David Yu, Dept. of Electrical Engineering, University of Wisconsin-Milwaukee, Milwaukee, WI; Hsiao-Dong Chiang, School of Electrical Engineering, Cornell University, Ithaca, NY ..... 249
- d. Fast Data Acquisition and Processing in Distribution in System Using DSP for Integrated Control and Protection System**, S.A. Khaparde and Remesh Kumar, Dept. of Electrical Engineering, Indian Institute of Technology-Bombay, Mumbai, INDIA ..... 255

Distribution &amp; Distributed Resources

**20. Distributed Resources 2 - Integration**

Sponsored by APC

- a. Integration of Distributed Generation**, Ziya Kirman, System Protection & Control, ComEd, Willowbrook, IL ..... \*
- b. Grid Integration Issues and Power Reliability Opportunities for The Virtual Power Plant**, Scott Anthony Castelaz, Vice President, Marketing & Corporate Development, Encorp, Inc., Chicago, IL ..... \*
- c. Interconnect Transparency for DPG Systems**, Kenneth R. BuShea, P.E., CEO of TEAMWORKnet, Inc., Plant City, FL ..... 261
- d. Impact of Distributed Generation on Power Quality**, M.A. Choudhry and Ju Chirl Park, Dept. of Computer Science & Electrical Engineering, West Virginia University, Morgantown, WV ..... \*
- e. A Case Study Highlighting the Investigative Approach Used to Explain a High Rate of Florescent Lamp Failures a School Utilizing Distributed Generation**, Larry Suderow, Power Quality Engineer, and Larry Guzy, Power Quality Engineer, Power Quality Services, ComEd, Maywood, IL ..... 266

## **P1. Poster Session 1 - Business Policy Issues**

Sponsored by APC

<b>a. Challenges Confronting Power Utility</b> , A.K. Verma, Professor, and A. Srividya, Professor, Reliability Engineering, Dept. of Electrical Engineering, Indian Institute of Technology, Mumbai, INDIA: Ashok M. Salsigikar, Chief Engineer, BSES Ltd., Mumbai, INDIA .....	272
<b>b. Kazakhstan Energy Overview: Inventory and Prospect</b> , Peter F. Mason, Project Manager, Calpine/Sutter Project, Bechtel Power Corp., Frederick, MD .....	278
<b>c. The Improved KSNP: Technical Innovations for the Next Millennium</b> , Jung Cha Kim, General Manager, Nuclear Power Construction Division, Korea Electric Power Corp, Seoul, Korea, Kyung Yoon, Supervising Project Manager, KOPEC, : C.S. Lim, Senior Manager, Sargent & Lundy, Chicago, IL .....	283
<b>d. Lessons from Large Grid Failures</b> , Zhaoxu Liu, Chief Engineer of Power System Dept, and Yongzhuang Li, Senior Engineer, Electric Power Research Institute, Beijing, P.R. CHINA .....	288
<b>e. Automatic Generation Control in A Deregulated Environment: An Overview</b> , H. Beidas, Sargent & Lundy, Chicago; K. Gacem, T&D Planning, ComEd, Lombard, IL .....	294
<b>f. Optimization of Natural-Gas Pipeline Systems via Identified Genetic Programming Rules</b> , Mustafa Isreb, Senior Lecturer, Monash University, Churchill, Victoria, AUSTRALIA .....	299
<b>g. Building a Profitability Data Mart to Support Deregulation</b> , Kai Trepte, Founder & CEO, John Galt Solutions, Inc., Chicago, IL .....	*
<b>h. Implementation and Utilization of Data Validation Engine</b> , Nan Dai, M.B. Selak, J.R. Marti and H.W. Dommel, Dept. of Electrical & Computer Engineering, The University of British Columbia, Vancouver, BC, CANADA .....	305

## **P2. Poster Session 2 - Technical Issues**

Sponsored by APC

<b>a. Electromagnetic Interference Caused by a Power System Network and a Neighboring Pipeline</b> , Y. Li, F.P. Dawalibi, and J. Ma, Safe Engineering Services & Technologies, Ltd., Quebec, CANADA .....	311
<b>b. Mitigating Lightning Transients in Microwave Towers</b> , Brian C. Bianco, Dept. of Electrical & Computer Engineering, University of Illinois-Urbana, Urbana, IL .....	317
<b>c. Generic Data Models for Breaker-Oriented Network Representation</b> , Mrudhula Lakkakula and Noel N. Schulz, Assistant Professor, Electrical Engineering Dept., Michigan Technological University, Houghton, MI .....	323
<b>d. Steady State Operating Characteristics of Hybrid Loaded Resonant Power Converter</b> , Taufik, Electrical Engineering Dept., California Polytechnic State University, San Luis Obispo, CA .....	328
<b>e. Practical Examples of Grounding Systems Located in Cylindrical Soils</b> , J. Ma, Y. Yang, and F.P. Dawalibi, Safe Engineering Services & Technologies, Ltd., Montreal, CANADA .....	333
<b>f. Performance Evaluation of Grounding Systems in Soils with Finite Volumes of Different Resistivities</b> , J. Ma, N. Mitskevitch, and F.P. Dawalibi, Safe Engineering Services & Technologies, Ltd., Montreal, CANADA .....	338
<b>g. Verification Testing of a 1MW Variable Speed Constant Frequency Drive (VSCF) Controlling a Submerged Cryogenic Generator</b> , Andrzej M. Trzynadlowski, Dept. of Electrical Engineering, University of Nevada-Reno, Reno, NV: Philip R. LeGoy, Research & Development, EBARA International Corp, Sparks, NV .....	343
<b>h. Capturing the Full Benefits of an Operator Simulator - or Saving Twenty-two Days on Your Outage (Withdrawn 3/13/00)</b> , J.T. Madell, System Simulation & Analyses, Western Springs, IL; Ron Griebenow, EPRI Training & Simulator Center, Kansas City, MO; Dan Donnelly and Bill Green, Dairyland Power Cooperative, Genoa, WI .....	*
<b>i. Matching the Capabilities of Combustion Turbine Generators with Modern Combustion Turbines</b> , R.J. Nelson, W.R. McCown, M. Tarbibi, K.W. Chan and S.A. Dubrasky, Siemens-Westinghouse Power Corp., Orlando, FL: J. Antonik, Siemens-Westinghouse Power Corp., Erfurt, GERMANY .....	349
<b>j. Regression Analysis at the Columbia Coal-Fired Power Plant to Predict the Generation Using Critical Variables</b> , Raghu Krishnan, Industrial Engineering Dept., Iowa State University, Ames, IA: Carolyn D. Heising, Office of Nuclear Energy, Science and Technology, US Department of Energy, Washington, DC .....	359
<b>k. Great Yarmouth Power Project, UK: A Tunnelling Solution</b> , N. Heavey, Lead Tunnelling Engineer, Bechtel, UK: R. Reilly, Civil/Structural Engineering Supervisor, Bechtel Power, Frederick, MD .....	365

\* Paper not available.

<b>I. Low Cost Advanced Reburning for SIP Call NOx Compliance</b> , Blair A. Folsom and Thomas J. Tyson, GE Energy and Environmental Research Corp., Irvine, CA .....	371
<b>m. Manufacture of Aluminum-Fly Ash Composite Castings Under Industrial Conditions</b> , P.K. Rohatgi, R.Q. Guo and A. Agrawal, Materials Dept., University of Wisconsin-Milwaukee, Milwaukee, WI; D. Weiss, Eck Industries, Manitowac, WI; R. Purgert, Thompson Aluminium Casting, Cleveland, OH; and B. Ramme, Wisconsin Electric Power Co., Milwaukee, WI.....	377
<b>n. Analytical Tool for Quick Estimate of Energy Dissipation, Applicable to the Large Component Removal - Package Drop Event, Required by the Design Rules of 10 CFR 71.45 Regulatory Guide</b> , Zdenek Studnicka, Burns & Roe Enterprises, Inc., Oradell, NJ .....	381
<b>o. Dry Cask Storage Project Plan: The Key to a Successful ISFSI</b> , Richard J. Netzel and Steve Malak, Sargent & Lundy, Chicago, IL .....	*
<b>p. Electric System Grid Stability and its Effect on Nuclear Plants</b> , Paul Schaffer, Sargent & Lundy, Chicago, IL .....	*
<b>q. Fuzzy Logic Based Evaluation of Optimal Reliability of Bulk Power System: A Multiobjective Approach</b> , Ajit K. Verma, A. Srividya and H.M. Ravikumar, Reliability Engineering Group, Dept. of Electrical Engineering, Indian Institute of Technology-Bombay, Mumbai, INDIA .....	388
<b>r. A Load Modeling for Power System Analysis Software</b> , J. Y. Lim, P. S. Ji, J. P. Lee, Taedok College and K. D. Kim, S. W. Park, KEPRI and J. H. Kim, Hongik University and C. Singh, Dept. of Electrical Engineering, Texas A&M University, College Station, TX .....	393
<b>s. Power Factor Correction Under Varying Load Conditions: Part II - Automatic Correction and Simulation</b> , Y.D. Song, A. Hamaifar, B.H. Singh and Z. Salami, Dept. of Electrical Engineering, North Carolina A&T State University, Greensboro, NC .....	399
<b>t. Development of the Jacobian Matrix for Power System Flow Analysis and a Different Approach to its Solution Technique</b> , Asrat Teshome, Electrical and Computer Engineering Dept., Wichita State University, Wichita, KS .....	404
<b>u. Dynamic and Voltage Collapse Stability in Power System</b> , Stuart Jonas and Asrat Teshome, Electrical & Computer Engineering, Wichita State University, Wichita, KS .....	410
<b>v. Newton-Raphson Power Flow Algorithm with a Half Jacobian Matrix</b> , Xu Min, Li Xiaorui, and Chen Ken, Automation Engineering Dept., Nanchang University, Nanchang, CHINA; Zhang Xiaohua, Jiangxi Bureau of Power, Dispatching & Communication, Nanchang, CHINA .....	416
<b>w. Solution to Newton-Raphson Power Flow with Three Elements Algorithm</b> , Xu Min, Li Xiaorui, and Chen Ken, Automation Engineering Dept., Nanchang University, Nanchang, CHINA; Zhang Rongwang, Zu Huazhang, Shangrao Power Supplying Bureau, Shangrao, P.R. CHINA .....	419
<b>x. Qualitative Analysis of Active Power Flow Distribution Methods to Evaluate: The Use of Network Costs Allocation</b> , J. Horacio Tovar Hernandez and Guillermo Gutierrez-Alcaraz, Programa de Graduados e Investigacion en Ingenieria Electrica, Instituto Tecnologico de Morelia, Morelia, MEXICO .....	422
<b>y. Development and Implementation of a Digital Distance Relaying Algorithm Using Discrete Fourier Transforms and Modal Transformation</b> , Joel Arturo Belin Delgado, Guillermo Gutierrez-Alcaraz and Edgar Lenymirko Moreno Goytia, Programa de Graduados e Investigacion en Ingenieria Electrica, Dept. de Ingenieria Electrica y Electronica, Instituto Tecnologico de Morelia, Morelia, MEXICO .....	428
<b>za. An Electric Machinery Behavior Simulation Package for Educational Purposes</b> , Maximo Hernandez Angeles, Instituto Tecnologico de Morelia, Morelia Michoacan, MEXICO; Jesus Artemio Perez, IIE Cuernavaca .....	433
<b>zb. Voltage Stability Assessment Using Artificial Neural Network</b> , Mostafa A. El-Shibini, Faculty of Engineering, Cairo University, Cairo, EGYPT; Ebtisam M. Saied, Faculty of Engineering, Zagazig University, Cairo, EGYPT .....	439
<b>zc. The Creation of Reliable High Temperature Sealing in the Power Generation Industry</b> , John Hoyes, Technical Director, Flexitallic Ltd., West Yorkshire, UK and Larry Stanford, Flexitallic, Deer Park, TX .....	445
<b>zd. Evaluation of the Auxiliary Feedwater System by Dynamic Modeling</b> , Paul Biba, Senior Mechanical Engineer, Edison International, San Clemente, CA .....	449
