Preface	ix
Part I. Basic and applied plasma science	1
Bifurcation and instability in an inductively driven electronegative plasma <i>A. J. Lichtenberg, P. Chabert, M. A. Lieberman and A. M. Marakhtanov</i>	3
Characteristics of electronegative plasmas <i>M. Shindo, R. Ichiki, S. Yoshimura and Y. Kawai</i>	26
Transition in a massive negative ion plasma <i>W. Oohara, S. Ishiguro and R. Hatakeyama</i>	43
Bifurcations in simple plasma diodes <i>T. Klinger, F. Greiner and A. Piel</i>	57
Coupling and controlling of intermittent chaos caused by ion acoustic instability <i>T. Fukuyama and Y. Kawai</i>	78
Observation of chaos caused by flute instability excited in ECR plasma <i>M. Koga and Y. Kawai</i>	94
Bifurcations in asymmetric non-neutral plasmas <i>J. Fajans</i>	105
'Bifurcation' in the evolution of vortex structure in a magnetized pure electron plasma <i>Y. Kiwamoto, A. Sanpei and K. Ito</i>	114

Transition and bifurcation phenomena in a magnetized cylindrical plasma with electron flow channel <i>R. Hatakeyama, M. Sato, W. Oohara and T. Takado</i>	128
Observation of electron beam plasma instability between two mesh grid boundaries <i>N. Hayashi and C. Yamabe</i>	148
Bifurcation in asymmetric plasma divided by a magnetic filter or a negatively biased mesh grid <i>H. Naitou, Y. Okamoto, K. Ohi, Y. Tauchi, O. Fukumasa and K. Itoh</i>	158
Density transitions by voltage biasing to magnetized plasma <i>S. Shinohara and S. Matsuyama</i>	171
Part II. Space and astrophysical plasma	189
On the possible reason for non-detection of TeV-protons in SNRs <i>M. A. Malkov, P. Diamond and T. W. Jones</i>	191
Sudden changes during auroral substorm <i>K. Yumoto</i>	217
Part III. Laser-driven plasma	229
Statistical dynamics of electron filament merging <i>K. Mima, Y. Sentoku and T. Taguchi</i>	231
Part IV. High temperature plasmas 1	237
Physics of bifurcations in toroidal plasmas <i>U. Stroth, K. Itoh and S.-I. Itoh</i>	239
Bifurcation phenomena associated with radial electric field in a toroidal helical plasma <i>A. Fujisawa</i>	254

Bifurcation phenomena of heat flow through plasma sheath with electron emission from target plate <i>N. Ohno, M. Y. Ye and S. Takamura</i>	279
Part V. High temperature plasmas 2	295
Bifurcation in transport barrier formation <i>A. Fukuyama, K. Itoh, S.-I. Itoh and M. Yagi</i>	297
Theoretical analysis of transition of radial electric field in helical plasmas S. Toda and K. Itoh	316
Bifurcation and transport during the formation of transport barrier in tokamak plasmas <i>S. Benkadda, I. Voitsekhovitch, P. Beyer, C. F. Figarella, N. Bian and X. Garbet</i>	328
Analysis of the radial electric field structure bifurcation induced by electrodes in tokamaks <i>N. Kasuya, K. Itoh and Y. Takase</i>	341
Bifurcation phenomena of flow and radial electric field near the plasma edge and the magnetic island <i>K. Ida, et al.</i>	355
On the finite amplitude magnetic island as a bifurcated state <i>A. Furuya, S.-I. Itoh and M. Yagi</i>	368
Stochastic transition between turbulent branch and thermodynamic branch <i>M. Kawasaki, S.-I. Itoh, M. Yagi and K. Itoh</i>	381
Transport barrier physics; theory-experiment comparisons <i>T. S. Hahm</i>	393
Modeling of bifurcations in magnetic confinement plasmas <i>K. Itoh, S.-I. Itoh, A. Fukuyama, M. Yagi, S. Toda and M. Kawasaki</i>	416
