|                                                                                                                        |     |
|------------------------------------------------------------------------------------------------------------------------|-----|
| STANLEY CORRSIN: 1920–1986, <i>John L. Lumley and Stephen H. Davis</i>                                                 | 1   |
| AIRCRAFT ICING, <i>Tuncer Cebeci and Fassi Kafyeke</i>                                                                 | 11  |
| WATER-WAVE IMPACT ON WALLS, <i>D. H. Peregrine</i>                                                                     | 23  |
| MECHANISMS ON TRANSVERSE MOTIONS IN TURBULENT WALL FLOWS, <i>G. E. Karniadakis and Kwing-So Choi</i>                   | 45  |
| INSTABILITIES IN FLUIDIZED BEDS, <i>Sankaran Sundaresan</i>                                                            | 63  |
| AERODYNAMICS OF SMALL VEHICLES, <i>Thomas J. Mueller and James D. DeLaurier</i>                                        | 89  |
| MATERIAL INSTABILITY IN COMPLEX FLUIDS, <i>J. D. Goddard</i>                                                           | 113 |
| MIXING EFFICIENCY IN STRATIFIED SHEAR FLOWS, <i>W. R. Peltier and C. P. Caulfield</i>                                  | 135 |
| THE FLOW OF HUMAN CROWDS, <i>Roger L. Hughes</i>                                                                       | 169 |
| PARTICLE-TURBULENCE INTERACTIONS IN ATMOSPHERIC CLOUDS, <i>Raymond A. Shaw</i>                                         | 183 |
| LOW-DIMENSIONAL MODELING AND NUMERICAL SIMULATION OF TRANSITION IN SIMPLE SHEAR FLOWS, <i>Dietmar Rempfer</i>          | 229 |
| RAPID GRANULAR FLOWS, <i>Isaac Goldhirsch</i>                                                                          | 267 |
| BIFURCATING AND BLOOMING JETS, <i>W. C. Reynolds, D. E. Parekh, P. J. D. Juvet, and M. J. D. Lee</i>                   | 295 |
| TEXTBOOK MULTIGRID EFFICIENCY FOR FLUID SIMULATIONS, <i>James L. Thomas, Boris Diskin, and Achi Brandt</i>             | 317 |
| LEVEL SET METHODS FOR FLUID INTERFACES, <i>J. A. Sethian and Peter Smereka</i>                                         | 341 |
| SMALL-SCALE HYDRODYNAMICS IN LAKES, <i>Alfred Wüest and Andreas Lorke</i>                                              | 373 |
| STABILITY AND TRANSITION OF THREE-DIMENSIONAL BOUNDARY LAYERS, <i>William S. Saric, Helen L. Reed, Edward B. White</i> | 413 |
| SHELL MODELS OF ENERGY CASCADE IN TURBULENCE, <i>Luca Biferale</i>                                                     | 441 |
| FLOW AND DISPERSION IN URBAN AREAS, <i>R. E. Britter and S. R. Hanna</i>                                               | 469 |
