

Contents

Preface	ix
Processing for SiC/SiC Composites	
Overview of CREST-ACE Program for SiC/SiC Ceramic Composites and Their Energy System Applications	3
A. Kohyama and Y. Katoh	
Processing of SiC/SiC Fibrous Composites According to CVI-Techniques	19
R. Naslain, F. Langlais, R. Pailler, and G. Vignoles	
Research on the High Performance Silicon Carbide Ceramics and Silicon Carbide Based Composites	39
D.L. Jiang	
Optimization and Characterization of Chemical Vapor Infiltrated SiC/SiC Composites	55
T. Hinoki, L.L. Snead, T. Taguchi, N. Igawa, W. Yang, T. Nozawa, Y. Katoh, and A. Kohyama	
Optimizing the Fabrication Process for Excellent Mechanical Properties in Stoichiometric SiC Fiber/FCVI SiC Matrix Composites	69
T. Taguchi, N. Igawa, S. Jitsukawa, T. Nozawa, Y. Katoh, A. Kohyama, L.L. Snead, and J.C. McLaughlin	
A Novel Processing Technique of Silicon Carbide-Based Ceramic Composites for High Temperature Applications	77
Y. Katoh, S.M. Dong, and A. Kohyama	
Facile Fabrication of SiC Matrix Composites Using Novel Pre ceramic Polymers	87
L. Macdonald	
Process Design for SiC/SiC Composite with Polymeric Precursor	97
M. Kotani, Y. Katoh, and A. Kohyama	

Matrix Filling Behavior of SiC _f /SiC Composite by Whiskering and the CVI Process	105
J.Y. Park, H.S. Hwang, W.J. Kim, J.H. Son, and D.J. Choi	
Development of SiC _f /SiC Composites by the Melt Infiltration Process	115
S.P. Lee, Y. Katoh, and A. Kohyama	
Processing for SiC/SiC Composite Constituent	
Mechanical, Thermochemical, and Microstructural Characterization of AHPCS-Derived SiC	125
L.V. Interrante, L. Macdonald, and W. Sherwood	
Polysilane-Based Precursors for SiC/SiC Composites	141
M. Narisawa, K. Okamura, T. Iseki, K. Oka, and T. Dohmaru	
Present Status and Future Trends on the Development and Application of Continuous SiC Fibers	153
H. Ichikawa	
Properties of BN Coating on SiC Fiber by the Continuous CVD Process	165
M. Suzuki, Y. Tanaka, Y. Inoue, N. Miyamoto, M. Sato, and K. Goda	
SiC Ceramic Fibers Synthesized from Polycarbosilane-Polymethylsilane Polymer Blends	173
M. Narisawa, M. Nishioka, K. Okamura, K. Oka, and T. Dohmaru	
Effect of Residual Silicon Phase on Reaction-Sintered Silicon Carbide	181
S. Suyama, Y. Itoh, A. Kohyama, and Y. Katoh	
Characterization of Thermomechanical Performance	
Development of Test Standards for Continuous Fiber Ceramic Composites in the United States	191
E. Lara-Curzio	
Evaluation of Lifetime Performance of Hi-Nicalon™ Fiber-Reinforced Melt-Infiltrated SiC Ceramic Composites	207
H-T. Lin and M. Singh	

Shear Lag-Monte Carlo Simulation of Tensile Behavior of Unidirectional Ceramic Matrix Composites	221
S. Ochiai, H. Okuda, H. Tanaka, M. Tanaka, M. Hojo, K. Schulte, and B. Fiedler	
A New Standard Test Method for the Tensile Evaluation of Ceramic Fibers	233
E. Lara-Curzio	
Tensile Strength of Chemical Vapor Infiltrated Advanced SiC Fiber Composites at Elevated Temperatures	245
T. Nozawa, K. Hironaka, Y. Katoh, A. Kohyama, T. Taguchi, S. Jitsukawa, and L.L. Snead	
Thermomechanical Properties of Silicon Carbide Fiber-Reinforced SIALON-Based Composites Fabricated by Reactive Melt Infiltration.	253
S. Kitaoka, N. Kawashima, Y. Sugahara, Y. Sugita, Y. Kagiya, and T. Banno	
Fracture Resistance Evaluation of Ceramic Matrix Composites	263
J.S. Park, Y. Katoh, A. Kohyama, and H.K. Yoon	
Effects of Interlayers on Interfacial Shear Strength and Flexural Properties of Tyranno-SA Fiber-Reinforced CVI-SiC/SiC Composites	273
W. Yang, H. Araki, T. Noda, Q. Hu, H. Suzuki, Y. Katoh, and A. Kohyama	
Flexural Properties of Several SiC Fiber-Reinforced CVI-SiC Matrix Composites	281
H. Araki, T. Noda, W. Yang, Q. Hu, H. Suzuki, and A. Kohyama	
A Finite-Element Analysis of the Thermal Diffusivity/ Conductivity of SiC/SiC Composites	289
R. Yamada, N. Igawa, and T. Taguchi	
Microstructure Evolution in Highly Crystalline SiC Fiber Under Applied Stress Environments	301
T. Shibayama, Y. Yoshida, Y. Yano, and H. Takahashi	

Joining Technologies and Advanced Energy Applications

High Temperature Brazing for SiC and SiC_f/SiC Ceramic Matrix Composites	311
B. Riccardi, C.A. Nannetti, J. Woltersdorf, E. Pippel, and T. Petrisor	
Joining SiC-Based Ceramics and Composites with Preceramic Polymers	323
P. Colombo, A. Donato, B. Riccardi, J. Woltersdorf, E. Pippel, R. Silbergitt, G. Danko, C. Lewinsohn, and R. Jones	
Modeling of Fracture Strength of SiC/SiC Composite Joints by Using Interface Elements	335
H. Serizawa, H. Murakawa, and C.A. Lewinsohn	
Dual-Beam Irradiation Effects in Silicon Carbide	343
H. Kishimoto, Y. Katoh, K.H. Park, S. Kondo, and A. Kohyama	
Silicon Carbide as Plasma Facing or Blanket Material	353
T. Hino, T. Jinushi, Y. Yamauchi, M. Hashiba, Y. Hirohata, Y. Katoh, and A. Kohyama	
Evaluation of Induced Activity of SiC Composites in Fusion Neutron Irradiation Environment	363
T. Noda, M. Fujita, H. Araki, W. Yang, H. Suzuki, Q. Hu, and A. Kohyama	
Index	375
