

C.4. Anomalous thermometer response	400
C.5. Theoretical estimate of the temperature gradient generated by the magnetic relaxation	401
C.5.1. Temperature difference between the slit and the wall	401
C.5.2. Comparison with the experiment	403
Appendix D. The viscosity of ^3He within the Landau theory	403
D.1. Non-polarized system	404
D.1.1. Expression of the viscosity coefficient	404
D.1.2. The forward scattering amplitudes	406
D.1.3. Approximation schemes	406
D.2. Polarized systems	407
D.2.1. General expression for the viscosity	408
D.2.2. s-wave limit	410
D.2.3. s-p approximation	411
