

Contents

I. Earth's Life Support Systems

Feedbacks of Terrestrial Ecosystems to Climate Change <i>Christopher B. Field, David B. Lobell, Halton A. Peters, and Nona R. Chiariello</i>	1
Carbon and Climate System Coupling on Timescales from the Precambrian to the Anthropocene <i>Scott C. Doney and David S. Schimel</i>	31
The Nature and Value of Ecosystem Services: An Overview Highlighting Hydrologic Services <i>Kate A. Brauman, Gretchen C. Daily, T. Ka'eo Duarte, and Harold A. Mooney</i>	67
Soils: A Contemporary Perspective <i>Cheryl Palm, Pedro Sanchez, Sonya Abamed, and Alex Awiti</i>	99

II. Human Use of Environment and Resources

Bioenergy and Sustainable Development? <i>Ambuj D. Sagar and Sivan Kartha</i>	131
Models of Decision Making and Residential Energy Use <i>Charlie Wilson and Hadi Dowlatabadi</i>	169
Renewable Energy Futures: Targets, Scenarios, and Pathways <i>Eric Martinot, Carmen Dienst, Liu Weiliang, and Chai Qimin</i>	205
Shared Waters: Conflict and Cooperation <i>Aaron T. Wolf</i>	241
The Role of Livestock Production in Carbon and Nitrogen Cycles <i>Henning Steinfeld and Tom Wassenaar</i>	271
Global Environmental Standards for Industry <i>David P. Angel, Trina Hamilton, and Matthew T. Huber</i>	295
Industry, Environmental Policy, and Environmental Outcomes <i>Daniel Press</i>	317

Population and Environment <i>Alex de Sherbinin, David Carr, Susan Cassels, and Leiwen Jiang</i>	345
---	-----

III. Management, Guidance, and Governance of Resources and Environment

Carbon Trading: A Review of the Kyoto Mechanisms <i>Cameron Hepburn</i>	375
--	-----

Adaptation to Environmental Change: Contributions of a Resilience Framework <i>Donald R. Nelson, W. Neil Adger, and Katrina Brown</i>	395
---	-----

IV. Integrative Themes

Women, Water, and Development <i>Isha Ray</i>	421
--	-----
