## 1 Characteristics of Low-Temperature Plasmas Under Nonthermal Conditions

### – A Short Summary 1

*Alfred Rutscher* †

- 1.1 Introduction 1
- 1.1.1 Definition 1
- 1.1.2 Types of Plasmas 2
- 1.2 Starting Point for Modeling the Plasma State 2
- 1.2.1 Single-Particle Trajectories 2
- 1.2.2 Kinetic and Statistical Theory 2
- 1.2.3 Hydrodynamic Approximation 3
- 1.3 The Role of Charge Carriers 3
- 1.4 Facts and Formulas 4
- 1.4.1 Electron Energy Distribution Functions (EEDF) 4
- 1.4.2 Kinetic Temperature of Electrons 4
- 1.4.3 Coefficients for Particle and Energy Transport 5
- 1.4.4 Generalized Boltzmann Equilibrium 6
- 1.4.5 Ambipolar Diffusion 7
- 1.4.6 Condition of Quasineutrality 9
- 1.4.7 Debye Screening Length 9
- 1.4.8 Degree of Ionization 11
- 1.4.9 Electrical Conductivity 12
- 1.4.10 Plasma Frequency 14

## 2 Electron Kinetics in Weakly Ionized Plasmas 15

*Detlef Loffhagen, Florian Sigeneger, and Rolf Winkler*

- 2.1 Introduction 15
- 2.1.1 The Active Role of Electrons in the Plasma 15
- 2.1.2 Action of Electric Fields and Collision Processes 16
- 2.2 Kinetic Treatment of the Electrons 18

2.2.1	Velocity Distribution and Macroscopic Properties	18	4.2.3.1	Repulsive Potentials	80
2.2.2	Kinetic Equation of the Electrons	19	4.2.3.2	Attractive Potentials	81
2.2.3	Treatment of the Kinetic Equation	20	4.3	Scattering of Ions at Surfaces	84
2.2.4	Macroscopic Properties of the Electrons	21	4.3.1	Implantation of Ions	84
2.3	Kinetics in Time- and Space-Independent Plasmas	23	4.3.2	Backscattering of Ions	84
2.3.1	Basic Equations and Consistent Macroscopic Balances	23	4.4	Physical Sputtering	86
2.3.2	Illustration of Distribution Functions and Macroscopic Quantities	25	4.4.1	Projectile Energy Dependence	86
2.4	Electron Kinetics in Time-Dependent Plasmas	28	4.4.2	Energy Distribution of Sputtered Particles	87
2.4.1	Basic Equations for the Distribution Components	28	4.4.3	Sputtering of Clusters	89
2.4.2	Balance Equations and Dissipation Frequencies	29	4.4.4	Potential Sputtering Employing Highly Charged Ions	89
2.4.3	Temporal Relaxation of the Electrons	31	4.5	Electron Emission	91
2.5	Electron Kinetics in Space-Dependent Plasmas	32	4.5.1	Emission of Electrons by Electron Impact	92
2.5.1	Basic Equations and Consistent Balances	33	4.5.1.1	Reflection of Electrons from Surfaces	93
2.5.2	Spatial Relaxation of the Electrons	34	4.5.1.2	Emission of Secondary Electrons by Electron Impact	94
2.6	Electron Kinetics in Time- and Space-Dependent Plasmas	37	4.5.2	Emission of Electrons by Ion Impact	94
2.6.1	Basic Equations and Macroscopic Balances	38	4.5.3	Emission of Electrons by Cluster Impact	97
2.6.2	Spatiotemporal Relaxation of the Electrons	40	4.6	Chemical Effects	98
2.7	Concluding Remarks	43	4.6.1	Chemical Sputtering and Plasma Etching	98
2.7	References	44	4.6	References	100
