Preface xi  
Contributors xiii  
Abbreviations and Acronyms xix

## SECTION I. SAFETY MANAGEMENT AND POLICY

Robert J. Alaimo, *Section Editor*

1. Chemical Laboratory Safety Training 3  
Kenneth P. Fivizzani
2. Working Alone 9  
W. Carl Gottschall
3. Personal Hygiene 11  
Ruth A. Hathaway
4. Drug Enforcement Agency Chemical Regulations 15  
Robert J. Alaimo
5. Laboratory Security 21  
Richard L. Fleming
6. Addressing the Human Dynamics of Health and Safety 25  
E. Scott Geller
7. Effective Management of Contractor/Visitor Safety 32  
Richard G. Raymer
8. The Chemical Hygiene Plan 38  
George H. Wahl, Jr.
9. Chemical Safety Information on the Internet 45  
Ralph B. Stuart III
10. Understanding the Toxic Substances Control Act: Compliance and Reporting Requirements 53  
Fred Hoerger  
Robert Hagerman

## SECTION II. RISK MANAGEMENT

Lawrence Doemeny  
Elizabeth K. Weisburger  
*Section Editors*

11. Introduction to Risk Assessment 63  
Leslie Stayner
12. Communicating Risk 67  
Richard J. Hackman  
Kimberlee Vollbrecht  
Leslie M. Yee
13. Standard Operating Procedures 72  
Jay A. Young
14. Occupational Exposure Limits 75  
Edward V. Sargent  
Bruce D. Naumann
15. Industrial Hygiene Exposure Assessment—Data Collection and Management 81  
Paul Hewett
16. Industrial Hygiene Exposure Assessment—Data Analysis and Interpretation 102  
Paul Hewett
17. Reproductive Hazards in the Workplace 130  
Elizabeth Anne Jennison
18. Epidemiology 136  
Neely Kazerouni  
Shelia Hoar Zahm  
Ellen F. Heineman
19. Carcinogenesis 141  
Elizabeth K. Weisburger
20. Toxicology 148  
Elizabeth K. Weisburger

- 21.** Process Safety Reviews 157  
Dennis C. Hendershot
- 22.** Safe Entry into Confined Spaces 166  
Laura L. Hodson
- 23.** The Control of Hazardous Energy  
(Lockout/Tagout) 172  
David J. Van Horn
- SECTION III. EMERGENCY MANAGEMENT**  
Russell Phifer, *Section Editor*
- 24.** Emergency Response Planning and Training 181  
Louis N. Molino, Sr.
- 25.** Emergency Equipment 186  
John C. Bronaugh
- 26.** Emergency Evacuation/Shelter-in-Place  
Plans 194  
John J. McNamara
- 27.** Flood Contingency Plans 198  
Ruth A. Hathaway
- 28.** Seismic Safety 201  
Stanley H. Pine
- 29.** Accident/Incident Investigation 205  
Stephen Sichak
- 30.** Chemical First Aid 208  
John R. McInerney
- SECTION IV. LABORATORY EQUIPMENT**  
Douglas B. Walters, *Section Editor*
- 31.** Specialized Instrumentation and Monitors 215  
Dan Agne  
Sal Agnello
- 32.** Inert Atmospheres Work 221  
Gerald W. Boicourt
- 33.** Preventive Maintenance 234  
Jerry R. Hines
- 34.** Health and Safety in the Microscale Chemistry  
Laboratory 239  
Zvi Szafran  
Mono M. Singh  
Ronald M. Pike
- 35.** Laboratory Scale-Up and Pilot Plant  
Operations 249  
Amy L. Romanowski
- 36.** Reducing Electrostatic Hazards Associated with  
Chemical Processing Operations 256  
Vahid Ebadat  
James C. Mulligan
- 37.** Centrifuge Safety 265  
Martha A. McRae
- 38.** Safe Use of Laboratory Glassware 272  
Robert J. Alaimo
- 39.** Pressure/Vacuum Containing Systems and  
Equipment 277  
Kenneth K. Miles
- 40.** Laboratory Ovens and Furnaces 282  
Robert J. Alaimo  
Stephen A. Szabo
- 41.** Refrigerator, Freezer, and Cold Room Use in  
Chemical Laboratories 289  
Robert J. Alaimo
- 42.** Specialized Laboratory Containment-Control  
Hoods 292  
Lou DiBerardinis
- 43.** Laboratory Chemical Hoods 299  
Lou DiBerardinis
- 44.** Biological Safety Cabinets 307  
Raymond W. Hackney, Jr.
- SECTION V. CHEMICAL MANAGEMENT**  
Jay A. Young, *Section Editor*
- 45.** Material Safety Data Sheets 317  
Robert J. Alaimo  
Lynne A. Walton
- 46.** Personal Protective Equipment 322  
S. Z. Mansdorf
- 47.** Incompatibles 338  
Leslie Bretherick
- 48.** Corrosives and Irritants 343  
Jay A. Young

- 49.** Hazardous Catalysts in the Laboratory 345  
Francis P. Daly
- 50.** Flammables and Combustibles 347  
James G. Gallup
- 51.** Identifying Oxidizing and Reducing Agents 358  
Rudy Gerlach
- 52.** Peroxidizable Organic Chemicals 361  
Richard J. Kelly
- 53.** Disposal of Shock- and Water-Sensitive,  
Pyrophoric, and Explosive Materials 371  
George C. Walton
- 54.** Compressed Gases 377  
George Whitmyre
- 55.** Hydrogenations 383  
J. M. Lambert, Jr.  
W. S. Hamel
- 56.** Chemical Inventory Control and Methods 391  
Sharon E. Stasko
- 57.** Chemical Storage 397  
Lyle H. Phifer
- 58.** Cryogenic Safety 401  
George Whitmyre
- 59.** Explosive and Reactive Chemicals 404  
Irv Kraut
- SECTION VI. RADIOLOGICAL AND BIOLOGICAL SAFETY**  
Nelson Couch, *Section Editor*
- 60.** Non-Ionizing Radiation 413  
Joseph M. Greco
- 61.** Non-Ionizing Radiation: Radio-Frequency  
and Microwave Radiation 421  
R. Timothy Hitchcock
- 62.** Ionizing Radiation: Radiation Safety Program  
Elements 428  
Philip E. Hamrick
- 63.** Ionizing Radiation: Fundamentals 436  
Daniel D. Sprau  
Philip E. Hamrick  
Frederick L. Van Swearingen
- 64.** Radiation Emergency Response,  
Decontamination, PPE 446  
Bob Wilson
- 65.** Dosimetry 452  
Carmine M. Plott
- 66.** Lasers 458  
Wesley J. Marshall
- 67.** Biological Safety: Program Elements 465  
Debra L. Hunt
- 68.** Research Animal Biosafety 471  
Scott E. Merkle
- 69.** Biological Safety: Emergency Response and  
Decontamination Procedures 476  
Frederick L. Van Swearingen  
Antony R. Shoaf
- SECTION VII. LABORATORY DESIGN**  
Stephen Szabo, *Section Editor*
- 70.** Isolation Technology 487  
Dennis Eagleson
- 71.** Lab Design/Radiosynthesis Lab Design 495  
Nelson W. Couch  
John J. Nicholson  
Shimoga R. Prakash
- 72.** High-Pressure Test Cells and Barriers 501  
George W. Moncrief
- 73.** Clean Rooms for Semiconductors 508  
John A. Mosovsky
- 74.** Ergonomics in Design 513  
Laura S. Nystrom
- 75.** Ergonomic Factors in Laboratory Design 521  
Joshua O. Kerst
- 76.** Design Criteria for New Laboratories and  
Renovations 528  
Janet Baum

- 77.** Moving and Decommissioning Laboratories 554  
Richard Fink
- 78.** General Ventilation Design and Control Systems 560  
John P. Martin
- 79.** Elevators, Stairs, Ramps, and Step Stools 566  
Philbert R. Romero
- SECTION VIII. ENVIRONMENTAL MANAGEMENT**  
Russell Phifer, *Section Editor*
- 80.** The Disposal of Chemical Wastes 573  
Russell W. Phifer
- 81.** Biological Waste Management 598  
Robert Emery  
Wayne R. Thomann
- 82.** Safe Handling of Biohazardous Materials for Transport 603  
John H. Keene
- 83.** Radioactive Waste Management and Transportation 608  
Robert E. Uhorchak
- 84.** Waste Minimization: General 615  
Cynthia Klein-Banai
- 85.** Waste Minimization: Laboratories 622  
Cynthia Klein-Banai
- 86.** Environmental Controls and Liabilities 626  
Russell W. Phifer  
James Harless
- Index 631
