

Contents

	Preface	v
	Symbols and formulas	xi
1.	Welcoming problems	1
1.1	The friendly illiterate	1
1.2	Tourist with a short memory	2
1.3	The car and the goats	3
1.4	Patterns I	4
1.5	Classical random walk I	6
1.6	Number of walks until no shoes	8
1.7	Banach's match box problem	9
1.8	The generous king	11
2.	Basic probability theory I	13
2.1	Remarkable conditional probabilities	13
2.2	Exchangeability I	15
2.3	Exchangeability II	16
2.4	Combinations of events I	17
2.5	Problems concerning random numbers	19
2.6	Zero-one random variables I	20
3.	Basic probability theory II	23
3.1	A trick for determining expectations	23
3.2	Probability generating functions	24
3.3	People at the corners of a triangle	26
3.4	Factorial generating functions	27
3.5	Zero-one random variables II	28
3.6	Combinations of events II	31
4.	Topics from early days I	33
4.1	Cardano – a pioneer	33
4.2	Birth of probability	34
4.3	The division problem	36
4.4	Huygens's second problem	37
4.5	Huygens's fifth problem	38
4.6	Points when throwing several dice	39
4.7	Bernoulli and the game of tennis	41
5.	Topics from early days II	44
5.1	History of some common distributions	44
5.2	Waldegrave's problem I	47
5.3	Petersburg paradox	49

5.4	Rencontre I	50
5.5	Occupancy I	51
5.6	Stirling numbers of the second kind	54
5.7	Bayes's theorem and Law of Succession	56
5.8	Ménage I	59
6.	Random permutations	62
6.1	Runs I	62
6.2	Cycles in permutations	65
6.3	Stirling numbers of the first kind	67
6.4	Ascents in permutations	69
6.5	Eulerian numbers	70
6.6	Exceedances in permutations	71
6.7	Price fluctuations	72
6.8	Oscillations I	73
6.9	Oscillations II	76
7.	Miscellaneous I	79
7.1	Birthdays	79
7.2	Poker	80
7.3	Negative binomial	82
7.4	Negative hypergeometric I	83
7.5	Coupon collecting I	85
7.6	Coupon collecting II	87
7.7	Ménage II	88
7.8	Rencontre II	90
8.	Poisson approximation	92
8.1	Similar pairs and triplets	92
8.2	A Lotto problem	94
8.3	Variation distance	94
8.4	Poisson-binomial	96
8.5	Rencontre III	98
8.6	Ménage III	99
8.7	Occupancy II	101
9.	Miscellaneous II	103
9.1	Birthdays and similar triplets	103
9.2	Comparison of random numbers	105
9.3	Grouping by random division	106
9.4	Records I	108
9.5	Records II	110
9.6	A modification of blackjack	112
10.	Random walks	115
10.1	Introduction	115
10.2	Classical random walk II	117

10.3	One absorbing barrier	119
10.4	The irresolute spider	121
10.5	Stars I	122
10.6	Closed stopping region	123
10.7	The reflection principle	125
10.8	Ballot problem	128
10.9	Range of a random walk	130
11.	Urn models	133
11.1	Randomly filled urn	133
11.2	Pólya's model I	135
11.3	Pólya's model II	136
11.4	Pólya's model III	137
11.5	Ehrenfest's model I	140
11.6	Ehrenfest's game	142
11.7	A pill problem	143
12.	Cover times	146
12.1	Introduction	146
12.2	Complete graph	149
12.3	Linear finite graph	149
12.4	Polygon	150
12.5	A false conjecture	152
12.6	Stars II	153
12.7	Inequality for cover times	155
13.	Markov chains	156
13.1	Review I	156
13.2	Review II	158
13.3	Random walk: two reflecting barriers	161
13.4	Ehrenfest's model II	162
13.5	Doubly stochastic transition matrix	163
13.6	Card shuffling	165
13.7	Transition times for Markov chains	167
13.8	Reversible Markov chains	169
13.9	Markov chains with homesickness	170
14.	Patterns	173
14.1	Runs II	173
14.2	Patterns II	175
14.3	Patterns III	176
14.4	A game for pirates	178
14.5	Penney's game	179
14.6	Waldegrave's problem II	181
14.7	How many patterns?	181

15.	Embedding procedures	186
15.1	Drawings with replacement	186
15.2	Repetition of colours	189
15.3	Birthdays revisited	190
15.4	Coupon collecting III	191
15.5	Drawings without replacement	192
15.6	Socks in the laundry	193
15.7	Negative hypergeometric II	194
15.8	The first-to- r game I	195
16.	Special topics	199
16.1	Exchangeability III	199
16.2	Martingales	201
16.3	Wald's equation	203
16.4	Birth control	204
16.5	The r -heads-in-advance game	205
16.6	Patterns IV	207
16.7	Random permutation of 1's and (-1) 's	210
17.	Farewell problems	214
17.1	The first-to- r game II	214
17.2	Random walk on a chessboard	216
17.3	Game with disaster	217
17.4	A rendezvous problem	219
17.5	Modified coin-tossing	222
17.6	Palindromes	224
	References	230
	Index	236
