

Contents

1 Principles of Lasers and Laser-Surface Interactions.....	1
1.1 Introduction	1
1.2 Basics of Lasers	8
1.3 Continuous and Pulsed Modes of Operation of Lasers	14
1.4 Coherence of Light	16
1.5 Modification of Surface Properties	17
References	21
2 Interaction of Low-Power Laser Radiation with Surfaces	23
2.1 Laser Rangefinders	24
2.1.1 Applications of Laser Rangefinders	24
2.1.2 Satellite Laser Ranging	26
2.1.3 Lunar Laser Ranging	29
2.2 Lidar	32
2.3 Holography	37
2.3.1 Basics of Holography	37
2.3.2 How Holography Works	39
2.3.3 Applications of Holography	41
2.4 Low-Level Laser Therapy	43
2.5 Laser Interferometer Gravitational-Wave Observatories	46
2.6 Other Applications of Low-Power Laser-Surface Interactions	51
2.6.1 Free-Space Optical Communications	51
2.6.2 Laser Lighting Display	52
2.6.3 Laser Scanners for Barcodes	53
2.6.4 Laser Discs	54
2.6.5 Laser Printers	55
2.6.6 Laser Interferometry	56
2.6.7 Laser Pointers	56
2.6.8 Laser Surface Velocimeter	58
References	59
