

Contents

A Note on the Large Deviations for Piecewise Expanding Multidimensional Maps	1
R. Aimino and S. Vaienti	
Directional Metric Entropy and Lyapunov Exponents for Dynamical Systems Generated by Cellular Automata	11
Maurice Courbage and Brunon Kamiński	
On the Complexity of Some Geometrical Objects	29
P. Collet	
Fluctuations of Observables in Dynamical Systems: From Limit Theorems to Concentration Inequalities	47
Jean-René Chazottes	
On Flow Barriers in Discontinuous Dynamical Systems	87
Albert C. J. Luo	
Nonstandard Analysis of the Behavior of Ergodic Means of Dynamical Systems on Very Big Finite Probability Spaces	115
E. I. Gordon, L. Yu. Glebsky and C. W. Henson	
On Measures Resisting Multifractal Analysis	153
Jörg Schmeling and Stéphane Seuret	
An Overview of Complex Kleinian Groups	167
Angel Cano and José Seade	
Semigroups of Mappings and Correspondences: Characters and Representations in Holomorphic Dynamical Systems	195
Carlos Cabrera, Peter Makienko and Peter Plaumann
