

CONTENTS

<i>Survey</i>	Arthur von Hippel	1
I • Theory	Arthur von Hippel	3
<i>A • Macroscopic Properties of Dielectrics</i>		3
1 • Complex Permittivity and Permeability		3
2 • Polarization and Magnetization		5
3 • Description of Dielectrics by Various Sets of Parameters		9
4 • Reflection and Refraction of Electromagnetic Waves on Boundaries; Measurement of Dielectrics by Standing Waves		13
<i>B • Molecular Properties of Dielectrics</i>		18
1 • Molecular Mechanisms of Polarization		18
2 • Polarization and Atomic Structure		21
3 • Structure and Dielectric Response of Molecules		30
4 • Relaxation Polarization in Liquids and Solids		36
5 • Piezoelectricity and Ferroelectricity		40
II • Dielectric Measuring Techniques		47
<i>A • Permittivity</i>		47
1 • Lumped Circuits	Robert F. Field	47
2 • Distributed Circuits	William B. Westphal	63
<i>B • Permeability</i>	David J. Epstein	122
<i>C • Microwave Spectroscopy</i>	Malcolm W. P. Strandberg	134
<i>D • Magnetic Resonance</i>	Francis Bitter	139
III • Dielectric Materials and Their Applications		147
<i>A • Dielectric Materials</i>		147
1 • Insulation Strength of High-Pressure Gases and of Vacuum	John G. Trump	147
2 • Liquid Dielectrics	John D. Piper	156
3 • Plastics as Dielectrics	Warren F. Busse	168
4 • Ceramics	Hans Thurnauer	179

B · <i>Dielectrics in Equipments</i>		189
1 · Dielectrics in Power and Distribu- tion Equipment	Leo J. Berberich	189
2 · Dielectrics in Electronic Equip- ments	Arthur J. Warner	211
3 · Dielectrics in Capacitors	Louis Kahn	221
4 · Rubber and Plastics in Cables	John T. Blake	225
5 · Problems of the Cable Engineer	Samuel J. Rosch	233
C · <i>Dielectric Materials as Devices</i>		242
1 · Rectifiers	Clarence W. Hewlett	242
2 · Piezoelectric Transducers and Res- onators	Karl S. Van Dyke	250
3 · Magnetic and Dielectric Amplifiers	Dudley A. Buck	261
4 · Memory Devices	William N. Papian	274
IV · Dielectric Requirements of the Armed Services		283
A · <i>The Air Force</i>	Fred H. Behrens	283
B · <i>The Army</i>	Charles P. Lascaro	285
C · <i>The Navy</i>	Thomas D. Callinan	288
V · Tables of Dielectric Mate- rials	Laboratory for Insulation Research Massachusetts Institute of Technology	291
Introduction		291
Contents		292
Dielectric Parameters		294
Measurements and Accuracy		300
Tabulated Dielectric Data		301
Data at Fixed Frequencies f as a Func- tion of Temperature		371
Company Index		426
Materials Index		429
Index		435
