<b>1</b>	<b>Introduction</b>	1
1.1	Definition and Importance of Swarms	1
1.2	Air and Vacuum Pumps	2
1.3	Static Electricity	5
1.4	Current Electricity	7
1.5	Faraday's Laws of Electrochemistry	9
1.6	Electrical Conduction	11
1.7	Ions	13
1.8	Ion Swarms, 1896–1928	16
1.9	Ion Diffusion, 1855–1926	21
1.10	Electron Swarms, 1900–1922	24
1.11	Early Kinetic Theory, 1905–1931	27
1.12	Mass Spectrometers	30
1.13	Ion Swarms, 1928–1960	32
1.14	Electron Swarms, 1922–1965	36
1.15	Electron and Ion Swarms, 1960–1975	38
1.16	Atomic Ion–Atom Kinetic Theory	42
1.17	Ion–Neutral Reactions	43
1.18	Improved Kinetic Theories	44
1.19	Generalized Einstein Relations	45
1.20	Transport with Molecular Systems	46
	References	48
<b>2</b>	<b>Experimental Techniques</b>	51
2.1	General Assumptions	51
2.2	Drift-Tube Mass Spectrometers	52
2.2.1	Illustration	52
2.2.2	Basics	54
2.2.3	Ion Mobility	56
2.2.4	Effects of Drift-Tube Length	56

2.2.5	Effects of Gas Temperature . . . . .	57
2.2.6	Effects of Gas Pressure . . . . .	58
2.2.7	Effects of Electromagnetic Field . . . . .	58
2.2.8	Effects of Time Measurements . . . . .	59
2.2.9	Calibration of the Entire DTMS . . . . .	59
2.3	Ion Arrival Time Distributions . . . . .	60
2.4	Diffusion in Drift-Tube Mass Spectrometers . . . . .	62
2.5	Mixtures of Buffer Gases . . . . .	66
2.6	Mixtures of Ions . . . . .	67
2.6.1	Mixtures of Atomic Isotopes . . . . .	67
2.6.2	Separation of Ions . . . . .	69
2.7	Ion Mobility Spectrometers . . . . .	70
2.7.1	Low-Field Limits . . . . .	70
2.7.2	Effects of Ion–Neutral Mass Ratio . . . . .	72
2.7.3	Effects of Charge State . . . . .	73
2.7.4	Effects of Chemical Reactions . . . . .	74
2.7.5	False Negatives and False Positives . . . . .	74
2.8	IMS/MS . . . . .	75
2.8.1	Basics . . . . .	75
2.8.2	Effects of Ion Mass in Atomic Systems . . . . .	75
2.8.3	Effects of Structure–Molecular Systems . . . . .	77
2.8.4	High Accuracy IMS/MS . . . . .	79
2.9	Differential IMS (DMS) . . . . .	81
2.9.1	Ping-Pong Experiments . . . . .	81
2.9.2	Basics of DMS . . . . .	82
2.9.3	Higher Order DMS . . . . .	83
2.10	Traveling-Wave IMS . . . . .	84
2.11	Trapped-Ion IMS . . . . .	85
2.12	Ion Cyclotron Resonance . . . . .	86
2.13	Ion Traps . . . . .	87
2.14	Laser Probing of Drift Tubes . . . . .	89
	References . . . . .	90
