

# Contents

<b>1</b>	<b>Introduction</b>	1
1.1	Fluid Model	1
1.2	Brief History of Fluid Dynamics	3
1.3	Compressible Fluid Plasma	4
1.4	Hydrodynamics of Laser Fusion	5
1.5	Modeling Radiation-Hydrodynamics in Astrophysics	7
1.6	Verification and Validation (V&V)	9
1.7	Brief in Each Chapter	11
	References	14
<b>2</b>	<b>Basic Properties of Plasma in Fluid Model</b>	15
2.1	Introduction	16
2.1.1	Coulomb Collision Relaxation Times	16
2.1.2	Fluid Model for Laser-Plasma	18
2.2	Neutral and Single Fluid Approximation of Plasma	20
2.2.1	Fluid Assumption	20
2.2.2	Basic Equations of Fluid Dynamics	22
2.2.3	Conservation Relations	25
2.2.4	Equation of State	26
2.2.5	Thermodynamic Consistency	27
2.2.6	Cold Pressure	28
2.3	Sound Waves	30
2.3.1	Wave Propagation in Spherical Geometry	32
2.3.2	Importance of Wave Analysis	33
2.3.3	Wave Optics and Metamaterial	34
2.4	Non-Ideal Fluid with Viscosity and Thermal Conduction	35
2.4.1	Viscosity and Reynolds Number	35
2.4.2	Wave Damping by Viscosity	39
2.4.3	Thermal Conduction	40
2.4.4	Self-Similar Solution	41

2.5	Incompressibility and Vortex . . . . .	44
2.5.1	Incompressible Fluid . . . . .	44
2.5.2	Incompressibility Assumption . . . . .	46
2.5.3	Vortex Equation . . . . .	47
2.6	One-Fluid and Two-Temperature Fluid Model . . . . .	49
2.7	Two Fluid Equation of Plasma . . . . .	51
2.7.1	Electron Plasma Waves . . . . .	53
2.7.2	Ion Acoustic Waves . . . . .	55
2.8	Mathematics for Wave Analysis . . . . .	57
2.8.1	Initial Value Problem of an Equation of Oscillation . . . . .	57
2.8.2	Solving with Fourier-Laplace Method . . . . .	60
2.9	Magneto-Hydrodynamic Equation of Plasma . . . . .	62
2.9.1	Biermann Battery Effect . . . . .	64
2.9.2	Similarity of Vortex and Magnetic Fields . . . . .	65
2.9.3	Ideal MHD Plasma . . . . .	67
2.9.4	Magnetic Dynamo Effect . . . . .	70
2.9.5	Plasma Confinement by Magnetic Field . . . . .	71
2.9.6	Resistive MHD in Strong Heat Flux . . . . .	73
2.10	MHD Waves . . . . .	74
2.10.1	Alfven Waves . . . . .	75
2.10.2	Compressive Alfven Wave (Magneto Acoustic Waves) . . . . .	78
2.10.3	Ion Acoustic Wave and Three Waves . . . . .	79
2.10.4	Torsional Alfven Wave . . . . .	80
2.11	Electromagnetic Wave in Magnetic Field . . . . .	82
2.11.1	EM Waves in Plasmas . . . . .	83
2.11.2	Electromagnetic Waves from Magnetized Plasmas . . . . .	87
2.11.3	Faraday Rotation . . . . .	90
2.11.4	EM Waves from Magnetized Plasmas . . . . .	91
	Appendix-A: Fluid Approximation of Plasma . . . . .	93
