## **CONTENTS**

| Dealcation   |  | V11        |
|--|--|------------|
| Preface to Fifth Edition                               |  | ix         |
| Preface to First Edition Acknowledgements              |  | xi<br>xiii |
|  |  |            |
| Chapter 1  | Historical Development                     | 9          |
| Chapter 2  | Heat Transfer and Fluid Flow Theory        | 29         |
| Chapter 3  | Heat Pipe Components and Materials         | 107        |
| Chapter 4  | Design Guide                               | 147        |
| Chapter 5  | Heat Pipe Manufacture and Testing          | 169        |
| Chapter 6  | Special Types of Heat Pipe                 | 215        |
| Chapter 7  | Applications of the Heat Pipe              | 275        |
| Chapter 8  | Cooling of Electronic Components           | 319        |
| Appendices   | s:   |            |
| Appendix 1   | Working Fluid Properties                   | 343        |
| Appendix 2 Thermal Conductivity of Heat Pipe Container |  | 252        |
|  | and Wick Materials                         | 353        |
| Appendix 3   | Bibliography                               | 355        |
| Appendix 4   | A Selection of Heat-Pipe-Related Web Sites | 359        |
| Appendix 5   | 5 Conversion Factors                       | 361        |
| Nomenclature   |  | 363        |
| Index  |  | 367        |
