

CONTENTS

Preface	vii
The Application of Probe Theory to a Spherical Charged Dust Particle <i>C. M. C. Nairn, B. M. Annaratone and J. E. Allen</i>	1
Laboratory Measurements of Dust Charging in Plasmas <i>M. Horányi, S. Robertson and B. Walch</i>	8
Nonlinear Debye Shielding in a Dusty Plasma <i>D. H. E. Dubin</i>	15
Modifications to Collisional Cross Sections Due to Complex Plasma Induced Grain Charge Distributions <i>J. W. Manweiler, T. P. Armstrong and T. E. Cravens</i>	22
Charged Dust Dynamics in Planetary Magnetospheres <i>M. Horányi</i>	33
The Regions of Confinement of Charged Dust Injected into the Terrestrial Magnetosphere <i>D. Maravilla, K. R. Flammer and D. A. Mendis</i>	47
Numerical Simulation of Dusty Plasmas <i>D. Winske</i>	60
Particle in Cell Simulation of Particulate in Glow Discharges and in Space Plasmas <i>G. Lapenta</i>	79
Experiments on Dust-Plasma Interactions <i>N. D'Angelo, A. Barkan and R. L. Merlino</i>	93
Confinement of Dust Particles in a Double Layer <i>R. L. Merlino and A. Barkan</i>	102
Waves in Dusty Plasmas <i>P. K. Shukla</i>	107

Arbitrary Amplitude Compressive Dust-Acoustic Solitons <i>S. V. Lakshmi and R. Bharuthram</i>	122
Instabilities in Dusty Plasmas <i>M. Rosenberg</i>	129
A Comparison of the Electrostatic Ion Cyclotron Instability in Dusty and Negative Ion Plasmas <i>V. W. Chow and M. Rosenberg</i>	141
Instability and Transport in an Electrostatically Levitated Equilibrium of Dusty Grains <i>K. Avinash and P. K. Shukla</i>	152
Electrostatic Instabilities Due to Charge Fluctuations in Dusty Plasmas <i>P. Meuris and F. Verheest</i>	159
On Morphology and Growth in Dust-Laden Plasmas <i>P. Haaland, A. Garscadden and B. Ganguly</i>	171
Electrode Engineering: A New Technology for Control of Particle Contamination and Process Uniformity in Plasma Processing <i>G. S. Selwyn</i>	177
Plasma Crystals — Structural Properties and Melting Transition <i>H. M. Thomas and G. E. Morfill</i>	199
Plasma Crystals with Positively Charged Dust <i>M. Rosenberg and D. A. Mendis</i>	223
Electromagnetic Wave Scattering and Transformation by Charged Dust in Plasmas <i>R. Bingham, U. de Angelis and V. N. Tsytovich</i>	227
List of Participants	239
