

Fusion Science and Technology

CONTENTS / JULY 2008—VOL. 54, NO. 1

Proceedings of the
EIGHTH INTERNATIONAL CONFERENCE ON
TRITIUM SCIENCE AND TECHNOLOGY
(Part 1)

Rochester, New York
September 16–21, 2007

Guest Editor: Walter T. Shmayda

vii Comments / *Nermin A. Uckan*

ix Preface / *Walter T. Shmayda*

ITER AND FUSION

3 ITER Design Review: Tritium Issues / *D. Murdoch et al.*

9 Uncertainty Assessment and Analysis of ITER in-VV Tritium Inventory
Determination / *Ioana R. Cristescu, I. Cristescu, M. Glugla, D. Murdoch,
S. Ciattaglia*

14 Tritium Processing Tests for the Validation of Upgraded PERMCAT Mechanical
Design / *D. Demange, M. Glugla, K. Günther, T. L. Le, K. H. Simon, R. Wagner,
S. Welte*

18 Korea's Activities for the Development of ITER Tritium Storage and Delivery
Systems / *Hongsuk Chung et al.*

22 Performance of a Full-Scale ITER Metal Hydride Storage Bed in Comparison
with Requirements / *S. Beloglazov, M. Glugla, E. Fanghänel, A. Perevezentsev,
R. Wagner*

27 Experimental Study on the Delivery Rate and Recovery Rate of ZrCo Hydride
for ITER Application / *Myunghwa Shim, Hongsuk Chung, Hiroshi Yoshida,
Kwangrag Kim, Seungyon Cho, Eunseok Lee, Minho Chang*

31 Parameter Estimations for the Kinetics of Dehydrating Reaction Between
Zirconium-Cobalt and Hydrogen / *Min Ho Chang et al.*

35 Tritium Test of a Ferrofluidic Rotary Seal / *Alexander Antipenkov, Christian Day,
Hans-Dieter Adami*

39 Tritium in Fusion: R&D in the EU / *R. Lässer et al.*

45 Tritium Research Activities Under the Broader Approach Program In JAEA /
Toshihiko Yamanishi et al.

(Continued)

(Continued)

- 51 Detritiation of JET Tiles by Laser Cleaning / *A. Widdowson et al.*
- 55 Techniques for Tritium Recovery from Carbon Flakes and Dust at the JET Active Gas Handling System / *S. Grünhagen et al.*
- 59 Determination of Neutrino Mass from Tritium Beta Decay / *B. Bornschein*
- 67 Tritium Processing Loop for KATRIN Experiment / *O. Kazachenko, B. Bornschein, N. Kernert, L. Doerr, M. Glugla, V. Weber, D. Stern*
- 71 Advanced Fueling System for Steady-State Operation of a Fusion Reactor / *Roger Raman*
- 75 Application of Membrane Dehumidifier for Gaseous Tritium Recovery in LHD / *Y. Asakura, M. Tanaka, T. Uda, H. Ogawa, S. Takami, Y. Oya, K. Okuno*

STORAGE

- 81 Helium Effects on Tritium Storage Materials / *I. Moysan, S. Contreras, J. Demoment*
- 85 Examination of 80°C Desorption Isotherms of Tritium Aged Pd/k and LANA.75 / *G. C. Staack, K. L. Shanahan, R. T. Walters, R. D. Pilgrim*
- 89 Interim Storage Requirements at Department of Energy Facilities / *Bill Weaver*
- 91 Certification Testing of Quality Secondary Storage (QSS) Containers / *Mark L. Bibeault*
- 95 Inexpensive, Off-the-Shelf Hybrid Microwave System / *R. T. Walters, P. Burket, J. H. Scogin IV*

BLANKET DESIGN

- 101 Tritium Transfers Evaluation on ITER HCLL TBM / *O. Gastaldi, P. Aizes, F. Gabriel, J. F. Salavy, L. Giancarli*
- 107 Tritium Extraction Systems for the European HCLL/HCPB TBMs / *I. Ricapito, A. Ciampichetti, G. Benamati, M. Zucchetti*
- 113 Measurement and Monitoring of Tritium and Other Critical Issues in Lead Lithium Ceramic Breeder (LLCB) / *V. K. Tangri, Sadhana Mohan, A. Narayanan, K. K. Narayan*
- 117 Experiment of Recovery of Tritium from Li by Y and Design of Hot Trap / *Satoshi Fukada, Yasushi Maeda, Yuuki Edao*
- 122 Dosimetric Impact Evaluation of Primary Coolant Chemistry of the Internal Tritium Breeding Cycle of a Fusion Reactor DEMO / *M. Velarde, L. A. Sedano, J. M. Perlado*
- 127 Study on Correlation Between Tritium Release Behavior and Annihilation Behavior of Irradiation Defects in Neutron-Irradiated Li_4SiO_4 / *H. Ishikawa et al.*
- 131 Solubility, Diffusivity, and Isotopic Exchange Rate of Hydrogen Isotopes in Li-Pb / *Y. Maeda, Y. Edao, S. Yamaguchi, S. Fukada*

(Continued)

(Continued)

TRITIUM HANDLING FACILITIES

- 137 RFNC-VNIIEF Experience in Development and Operation of Hydrogen Isotopes Gas-Handling Systems for Basic Research / *A. A. Yukhimchuk, R. I. Il'kaev*
- 143 A Decade of Tritium Technology Development and Operation at the Tritium Laboratory Karlsruhe / *L. Dörr et al.*
- 149 Tritium Laboratory with Multiple Purposes at NIPNE Magurele Romania / *Lidia Matei, C. Postolache*
- 153 Refurbishment of the Tritium Laboratories at SCK•CEN / *Johan Braet, Kris Dylst, Sven Vanderbiesen*
- 157 STAR Facility Tritium Accountancy / *R. J. Pawelko, J. P. Sharpe, B. J. Denny*
- 160 Tritium Confinement, Retention, and Releases at the Tritium Laboratory Karlsruhe / *U. Besserer, L. Dörr, M. Glugla*

TRITIUM MEASUREMENT

- 167 Remote Analysis of High-Tritium-Content Water / *R. A. Sigg, D. P. DiPrete, D. J. Pak, L. M. Arrigo*
- 170 Universal Tritium Transmitter / *Joseph V. Cordaro, Mike Wood*
- 174 Operational Experience and Validation of the Triathler™ Model 425-034 Single Vial Liquid Scintillation Counter for Meeting Department of Energy Release Criteria / *R. W. Kanady*
- 178 Evaluation of a Newly Developed Tritium Calorimeter at Los Alamos National Laboratory / *Diana S. West, Kandy J. Frame, Julia Thompson, Lawrence O. Ticknor*
- 182 Standardization of Tritium Measuring Devices Based on a High-Sensitivity Calorimeter / *Masao Matsuyama, Masanori Hara*
- 186 A Micro-Gas Phase Chromatography with a Recompression System Used to Measure Impurities in Low Pressure Tritiated Gases / *Alain Godot, Sébastien Colas, Jean-Charles Hubinois*
- 189 Performance Evaluation of a High-Sensitivity Tritium Gas Monitor Using a Pulse-Shaping Analyzer / *T. Kawano, T. Yamano, K. Yamada, M. Tanaka, Y. Asakura, T. Uda*
- 193 A Prototype Wearable Tritium Monitor / *R. A. Surette, J. Dubeau*
- 197 A Technique for Synthesizing Metal Tritide Standards / *H. T. Bach, T. H. Allen, D. D. Hill, P. T. Martinez, R. B. Schwarz, S. N. Paglieri, J. R. Wermer*

WASTE HANDLING

- 205 Tritium Release Reduction and Radiolysis Gas Formation / *Gaël Batifol, Christophe Douche, Christophe Sejourant*
- 209 Tritium Removal and Separation Technology Developments / *I. Bonnett, A. Busigin, A. Shapiro*

(Continued)

(Continued)

- 215 Removing Tritium and Other Impurities During Industrial Recycling of Beryllium from a Fusion Reactor / *Kris Dylst, John Seghers, Frank Druyts, Johan Braet*
- 219 Disposal Pathway for Tritiated Reactive Metals and Tritiated Hydrogen Gas / *A. B. Antoniazzi, C. S. Morton*
- 223 Concentration Profiles of Tritium Penetrated into Concrete / *H. Takata et al.*
- 227 Air Passivation of Metal Hydride Beds for Waste Disposal / *J. E. Klein, R. H. Hsu*
- 231 A Method to Quantify Tritium Inside Waste Drums: ³He Ingrowth Method / *Alain Godot, Célia Lepeytre, Jean-Charles Hubinois, Aurélien Arseguel, Jean-Pierre Daclin, Christophe Douche*

ENVIRONMENT AND SAFETY

- 237 Recent Progresses in Tritium Radioecology and Dosimetry / *D. Galeriu, P. Davis, W. Raskob, A. Melintescu*
- 243 Determination of the Non Exchangeable-Organically Bound Tritium (NE-OBT) Fraction in Tree Leaf Samples Collected Around a Nuclear Research Center / *N. Baglan, R. Le Meignen, G. Alanic, F. Pointurier*
- 248 HTO and OBT Concentrations in a Wetland Ecosystem / *S. B. Kim, W. J. G. Workman, P. A. Davis, T. Yankovich*
- 253 Organically Bound Tritium in the Environment: First Investigation of Environmental Survey in the Vicinity of a French Research Centre / *L. Vichot, C. Boyer, T. Boissieux, Y. Losset, D. Pierrat*
- 257 Experimental Investigation of Buried Tritium in Plant and Animal Tissues / *S. B. Kim, W. J. G. Workman, P. A. Davis*
- 261 Validation of Environmental Transfer Model of Tritium Using Pine Tree Scenario / *K. Miyamoto, K. Yamamoto, Y. Inoue*
- 265 Development and Validation of a Model for Tritium Accumulation by a Freshwater Bivalve Using the IAEA EMRAS Scenarios / *K. Miyamoto et al.*
- 269 Tritium Transfer in Pigs—A Model Test / *A. Melintescu, D. Galeriu*
- 273 Environmental and Radiological Impact of Accidental Tritium Release / *Philippe Guétat, Luc Patryl*
- 277 Historical Doses to the Public from Routine and Accidental Releases of Tritium—Lawrence Livermore National Laboratory, 1953–2005 / *S. Ring Peterson, Wolfgang Raskob*
- 281 The Background Levels of Atmospheric Tritium Concentration in the Environment at NIFS Toki Site of Japan / *Tatsuhiko Uda, Masahiro Tanaka, Takahiko Sugiyama, Taku Yamaguchi, Noriyuki Momoshima*
- 285 Tritium Level Along Romanian Black Sea Coast / *Carmen Varlam, Ioan Stefanescu, Irina Popescu, Ionut Faurescu*
- 289 Background Tritium Concentrations of River and Lake Waters in Japan / *Shinji Sugihara, Atsushi Hirose, Noriyuki Momoshima, Yonezo Maeda*

(Continued)

(Continued)

- 293 Seasonal Variability of Tritium and Ion Concentrations in Rain at Kumamoto, Japan and Back-Trajectory Analysis of Air Mass / *N. Momoshima, S. Sugihara, T. Toyoshima, Y. Nagao, M. Takahashi, Y. Nakamura*
- 297 Improved Electrolyzer for Enrichment of Tritium Concentrations in Environmental Water Samples / *Takeshi Muranaka, Nagayoshi Shima*
- 301 Tritium Emission Reduction at Darlington Tritium Removal Facility Using a Bubbler System / *K. Kalyanam, A. Leilabadi, O. El-Beairy, G. I. D. Williams, H. K. Vogt*
- 305 A Study of Tritium in Municipal Solid Waste Leachate and Gas / *Robert D. Mutch, Jr., John D. Mahony*
- 311 Tritium Behavior Intentionally Released in the Room / *Kazuhiro Kobayashi, Takumi Hayashi, Yasunori Iwai, Toshihiko Yamanishi, R. Scott Willms, R. V. Carlson*
- 315 Operational Results of the Safety Systems of the Tritium Process Laboratory of the Japan Atomic Energy Agency / *Toshihiko Yamanishi et al.*
- 319 Tritium Safety Study Using Caisson Assembly (CATS) at TPL/JAEA / *T. Hayashi et al.*
