

# Study of Options for the Reduced Technical Objectives/Reduced Cost ITER

## TABLE OF CONTENTS

<b>I</b>	<b>Overview</b>
I.1	ITER Plant Design Specifications
I.2	Main Parameter Sets and their Selection
I.3	Plasma Physics Performance Assessments
I.4	Safety
I.5	Design overview and issues
I.6	Cost & Schedule
<b>II</b>	<b>Design Analysis of Options</b>
II.1	Magnet System
II.2	Vacuum Vessel & In-vessel Components
II.3	Cryostat & Thermal Shields
II.4	Fuel Cycle
II.5	Water Cooling System
II.6	Plasma Diagnostic System
II.7	Heating & Current Drive System
II.8	Plant Service Systems - Building & Plant Layout
II.9	Initial Assembly
II.10	Tokamak Maintenance
