

Contents

1. Introduction	1
1.1 Background	1
1.2 Research of Fusion Plasma	3
1.3 Plasma Flows	4
1.3.1 Plasma Flow in Tokamak Devices	5
1.3.2 Plasma Flow in Stellarator/Heliotron Devices	7
1.4 Motivations and Objectives	8
1.5 Outline	10
2. Heliotron J	23
2.1 Introduction	23
2.2 Characteristics of Magnetic Field Configurations in Heliotron J	24
2.2.1 Helical-axis Heliotron Configuration	24
2.2.2 Role of Bumpy Component	24
2.3 Heliotron J	26
2.3.1 Heating Devices	26
2.3.2 Diagnostics	28
3. Charge-exchange Recombination Spectroscopy System in Heliotron J	37
3.1 Introduction	37
3.2 Principle of Charge-exchange Recombination Spectroscopy	38
3.3 Charge-exchange Recombination Spectroscopy System in Heliotron J	39
3.3.1 Optical System	40
3.3.2 Monochromator	40
3.3.3 Detector	41
3.3.4 Data Acquisition System	41
3.4 Estimation of Observation Point and Radial Resolution	42
3.5 Calibrations	44
3.5.1 Dispersion and Instrument Function of Czerny-Turner Monochromator ...	44
3.5.2 Lens Aberration	44
3.5.3 Effect of Fine Structure	45
3.5.4 Sensitivity Calibration between Two Optical Sets	46

3.6 Spectrum Analysis	47
3.6.1 Observed Spectrum	47
3.6.2 Gaussian Fitting and Error Estimation	47
3.6.3 Evaluation of Parallel Flow Velocity and Ion Temperature	48
3.7 Examples of Measurement of Parallel Flow Velocity and Ion Temperature	50
3.7.1 Comparison between Ion Temperatures Measured by Charge-exchange Recombination Spectroscopy and Neutral Particle Analyzer	51
3.7.2 Measurement of Parallel Flow Velocity and Ion Temperature using Multi-chords on the Same Magnetic Flux Surface	52
3.8 Summary	53
4. Measurement of Parallel Flow Velocity during Neutral Beam Injection in Three Mirror Configurations	83
4.1 Introduction	83
4.2 Mirror Configurations	84
4.3 Typical Time Evolution of Plasma Parameters	85
4.4 Radial Profiles of Parallel Flow Velocity and Ion Temperature in Quasi-steady State	86
4.5 Response of Parallel Flow Velocity to External Momentum Input by Neutral Beam Injection	87
4.5.1 Estimation of External Momentum Input by Neutral Beam Injection	88
4.5.2 Parallel Flow Velocity with External Momentum Input Scan	90
4.6 Summary	91
5. Discussion	111
5.1 Introduction	111
5.2 Evaluation of Reference Parallel Viscosity	112
5.3 Comparison between Experimental Effective and Reference Parallel Viscosities	113
6. Conclusions	121
Appendix	125
Acknowledgements	139
List of Publications, Presentations and Award	141
