Preface.....	xiii
Acknowledgments.....	xv
Author.....	xvii
1 Introduction.....	1
1.1 Diffuse Optical Tomography.....	1
1.2 Image Reconstruction.....	2
1.2.1 Forward Problem: Photon Diffusion/Transport Model.....	3
1.2.2 Inverse Problem	4
2 Reconstruction Algorithms	9
2.1 Introduction/Historical Account.....	9
2.2 Reconstruction Algorithm.....	10
2.3 Experimental Materials and Methods	15
2.4 Results.....	18
2.4.1 Simulations	19
2.4.2 Experiments.....	24
2.5 Discussion	29
3 Instrumentation and Calibration Methods.....	35
3.1 Introduction/Historical Account.....	35
3.2 The Single-Wavelength Automatic Scanning Diffuse Optical Tomography (DOT) System	36
3.3 The Three-Wavelength Multichannel DOT System.....	37
3.3.1 The Multiwavelength Laser Subsystem	39
3.3.2 The Source/Detector Optic Fiber Probe	40
3.3.3 The Fiber Optic Multiplexing/Demultiplexing System.....	41
3.3.4 The Detection Unit.....	42
3.3.5 The Data Acquisition Unit.....	44
3.3.6 System Calibration.....	44
3.3.7 Performance and Discussion.....	47
3.4 The Ten-Wavelength 64×64 -Channel DOT System.....	48
3.4.1 The Ten-Wavelength Laser Subsystem	49
3.4.2 The Source/Detector Fiber Optic Probe	49
3.4.3 The Optical Switch.....	52
3.4.4 The Detection Unit.....	52
3.4.5 The Data Acquisition Unit.....	55
3.4.6 System Performance	55

3.4.6.1	Detector Sensitivity and Dynamic Range	55
3.4.6.2	Gain Control.....	56
3.4.6.3	System Timing	57
3.4.6.4	Stability	57
3.4.6.5	DC Offset.....	58
3.4.6.6	Noise Reduction	58
3.4.6.7	Experiments	59
3.5	Computational-Based Calibration Method	60
3.6	Hybrid Calibration Method.....	66
4	Contrast, Spatial Resolution, and Uniqueness of Inverse Solution.....	77
4.1	Introduction/Historical Account.....	77
4.2	Contrast, Spatial Resolution, and Multiple Targets.....	78
4.2.1	Introduction	78
4.2.2	Methods and Materials	79
4.2.3	Results	80
4.2.3.1	Single-Target Reconstruction.....	80
4.2.3.2	Multitarget Reconstruction.....	81
4.2.4	Discussion.....	87
4.3	Uniqueness and Cross-Talk Issues in Diffuse Optical Tomography	100
4.3.1	Introduction.....	100
4.3.2	Reconstruction Algorithm.....	100
4.3.3	Experimental Materials and Methods	102
4.3.4	Results	103
4.3.5	Discussion.....	104
5	Image Enhancement Schemes.....	115
5.1	Introduction/Historical Account.....	115
5.2	Total Variation Minimization Scheme	116
5.2.1	Introduction	116
5.2.2	Formulation of Total Variation Minimization	117
5.2.3	Results	119
5.2.3.1	Reconstructions from Simulated Data	120
5.2.3.2	Reconstructions from Experimental Data	122
5.2.4	Discussion.....	123
5.3	Dual Mesh Scheme	130
5.3.1	Introduction.....	130
5.3.2	Dual Mesh Method	131
5.3.3	Results	134
5.3.3.1	Reconstructions from Simulated Data	135
5.3.3.2	Reconstructions from Experimental Data	136
5.3.4	Discussion.....	138

5.4	Adaptive Mesh Scheme	139
5.4.1	Introduction	139
5.4.2	Adaptive Mesh Method	140
5.4.3	Experimental Materials and Methods	141
5.4.4	Results	141
5.4.5	Discussion	143
5.5	Reconstruction Based on the Third-Order Diffusion Equations.....	145
5.5.1	Introduction	145
5.5.2	Reconstruction Algorithm.....	147
5.5.3	Results and Discussion	150
5.6	Modified Newton Method.....	152
5.6.1	Introduction	152
5.6.2	Method	153
5.6.3	Experimental Materials and Methods	155
5.6.4	Results and Discussion	156
6	Fluorescence and Bioluminescence Diffuse Optical Tomography	161
6.1	Introduction/Historical Account	161
6.2	Fluorescence Diffuse Optical Tomography	162
6.2.1	Introduction	162
6.2.2	Reconstruction Algorithm	163
6.2.3	Results	166
6.2.4	Discussion	169
6.3	Fluorescence DOT Using an Oxygen-Sensitive Dye	171
6.3.1	Introduction	171
6.3.2	Methods and Materials	171
6.3.3	Results and Discussion	173
6.4	DOT-Guided Fluorescence DOT of Arbitrarily Shaped Objects	175
6.4.1	Introduction	175
6.4.2	Methods and Materials	175
6.4.3	Results and Discussion	177
6.5	Bioluminescence DOT	179
6.5.1	Introduction	179
6.5.2	Methods and Materials	180
6.5.2.1	Reconstruction Algorithm	180
6.5.2.2	Simulations.....	181
6.5.2.3	Experiments	181
6.5.3	Results and Discussion	182
6.6	DOT-Guided Bioluminescence Tomography	183
6.6.1	Introduction	183
6.6.2	Methods.....	184
6.6.3	Results and Discussion	185

7 New Contrast Mechanisms and Multimodality Approaches.....	189
7.1 Introduction/Historical Account.....	189
7.2 Phase-Contrast Diffuse Optical Tomography.....	190
7.2.1 The Diffusion Equation with a Spatially Varying Refractive Index	191
7.2.2 The Reconstruction Algorithm	193
7.2.3 Experiments.....	194
7.2.4 Results and Discussion	195
7.3 Enhanced Phase-Contrast DOT: Two-Step Multiregion Approach.....	196
7.3.1 Introduction	196
7.3.2 Region Reconstruction	197
7.3.3 Experiments.....	198
7.3.4 Results and Discussion	199
7.4 Multispectral Cellular DOT.....	203
7.4.1 Introduction	203
7.4.2 Methods and Materials	204
7.4.2.1 Reconstruction Algorithms	204
7.4.2.2 Experiments	205
7.4.3 Results and Discussion	205
7.5 Multimodality Approaches: Ultrasound Tomography-Guided DOT.....	209
7.5.1 Introduction	209
7.5.2 Methods and Materials	209
7.5.3 Results and Discussion	211
7.6 Multimodality Approaches: X-ray-Guided DOT.....	214
7.6.1 Introduction	214
7.6.2 Materials and Methods	214
7.6.3 Results and Discussion	216
8 Clinical Applications and Animal Studies.....	219
8.1 Introduction/Historical Account.....	219
8.2 Breast Imaging.....	220
8.2.1 Two-Dimensional Imaging.....	221
8.2.1.1 Introduction	221
8.2.1.2 Methods	221
8.2.1.3 Results	222
8.2.1.4 Discussion	225
8.2.2 Three-Dimensional Imaging.....	227
8.2.2.1 Introduction	227
8.2.2.2 3D Data Collection Scheme.....	227
8.2.2.3 Results and Discussion.....	228
8.2.3 Cysts versus Solid Breast Tumors.....	230
8.2.4 Functional Imaging	238
8.2.5 Phase-Contrast Imaging	240

8.2.6 Cellular DOT	243
8.2.6.1 Introduction	243
8.2.6.2 Infiltrating Ductal Carcinoma.....	244
8.2.6.3 Benign Nodule	246
8.2.6.4 Image Analysis	248
8.2.6.5 Pathological Coregistration.....	248
8.2.6.6 Discussion	250
8.2.7 Monitoring of Neoadjuvant Chemotherapy	252
8.3 Joint Imaging	254
8.3.1 DOT	256
8.3.1.1 Materials and Methods	256
8.3.1.2 Results	258
8.3.1.3 Discussion	263
8.3.2 X-ray-Guided Single-Spectral DOT	267
8.3.2.1 Materials and Methods	268
8.3.2.2 Results	272
8.3.2.3 Discussion	275
8.3.3 X-ray-Guided Multispectral DOT	279
8.3.3.1 Materials and Methods	279
8.3.3.2 Results	282
8.3.3.3 Discussion	287
8.3.4 X-ray-Guided DOT of the Knee Joints	291
8.4 Brain Imaging	293
8.4.1 DOT System and Phantom Experiments.....	295
8.4.2 <i>In Vivo</i> Studies: Dynamic Imaging of HbO ₂ , Hb, and HbT	296
8.4.3 Imaging of CBF and CMRO ₂ ; Algorithm	298
8.4.3.1 Mass Balance in Each Segment for Intravascular Flux	298
8.4.3.2 Mass Balance in Tissue Based on Global Analysis for Estimating Intravascular Flux	300
8.4.4 Imaging of CBF and CMRO ₂ ; <i>In Vivo</i> Results	302
8.4.5 Cellular Imaging	304
8.4.6 Analysis of the <i>In Vivo</i> Dynamic Functional and Cellular Images	304
Bibliography.....	307
Index.....	315
